

**NATIONAL COMMUNITY
LAND TRUST NETWORK**

EXECUTIVE SUMMARY 2006

The National Community Land Trust Network represents and promotes the interests of groups and individuals affiliated with Community Land Trusts (CLTs) throughout North America. These include members of CLTs, staff and general supporters who align themselves with the CLT model of creating and preserving permanently affordable housing through the democratic stewardship of land.

The National CLT Network serves a broad array of interests and is governed by an interim board currently consisting of 21 members representing a variety of geographic regions. The interim board will be dissolved and a permanent board constituted at the National CLT Conference in Boulder, CO in July of 2006.
