To the Legislature of Alabama:

This is the 23rd edition of a publication that the Legislative Fiscal Office first completed in January of 1979. The book is intended as a reference source for the most basic information about Alabama's taxes and revenues. An electronic version of this publication may be accessed on the Legislative Fiscal Office website at www.lfo.alabama.gov.

This publication involved the entire staff of the Legislative Fiscal Office. Heather Pырlik directed the project and was responsible for writing the final edition. The research and data collection was accomplished by the staff analysts.

Legislative history information has been updated to include acts enacted through the 2015 Regular Session, the 2015 First Special Session, and the 2015 Second Special Session of the Legislature. Collection information has been updated to include fiscal year 2015 receipts. For most revenue sources, comparison with other states information was updated as well.

The primary sources used in compiling this information were the *Code of Alabama 1975*, the Acts of Alabama, and the Commerce Clearing House's State Tax Guide. The data for revenue collections was obtained primarily from the Department of Revenue's Revenue Abstract reports and revenue reports issued by the Department of Finance.

Except where noted, all references to years concern fiscal years. The fiscal years of the neighboring states cited cover the period July 1 through June 30, while Alabama's fiscal year extends from October 1 through September 30.

We would appreciate your suggestions as to how we might make future editions of more value to you.

Sincerely,

A handwritten signature in black ink, appearing to read "Othni J. Lathram".

Interim Director

State General Fund Receipts by Tax, FY 2015

Part II – Revenue Sources of the State of Alabama

Abandoned Property Act

Constitutional Provision:

Section 258 of the *Constitution of Alabama of 1901*, as amended by Amendment No. 111, now appearing as Section 258 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended.

Provided that the estates of deceased persons who die without leaving a will or heir shall be applied to the maintenance of the public schools. Amendment 111 (proposed by Act 1956-82, 1st Ex. Sess. and proclaimed ratified September 7, 1956) replaced reference to "maintenance of the public schools" with "the furtherance of education."

Statutory Authority:

Sections 35-12-70 through 35-12-96, *Code of Alabama 1975*, as amended.

Description:

This revenue source is not a tax but a provision for the orderly disposition of unclaimed or abandoned property. Every person or entity holding funds or other property, tangible or intangible, presumed abandoned must file a report with and deliver the property to the Treasurer. This property includes, but is not limited to, monies kept on deposit in financial institutions, traveler's checks, money orders, debit cards or other payment instruments, safe deposit box contents, monies owed to policyholders by insurance companies, utility deposits, and corporate stocks, securities and dividends held by brokers and fiduciaries. The Treasurer is required to attempt to notify the apparent owners of abandoned property in a cost-effective manner. All abandoned property (other than money and securities) delivered to the state treasurer is sold to the highest bidder at public sale within three years after its delivery (unless the treasurer determines that the probable cost of sale exceeds the value of the property).

Collections:

All funds received, including the proceeds from the sale of abandoned property, are collected by the Treasurer.

Distribution:

All funds received and proceeds from the sale of abandoned property are deposited as follows:

- (1) Funds from estates of persons who died without leaving a will or heir are deposited into the Public School Fund.
- (2) All other funds are deposited into the Unclaimed Property Reserve Fund from which the Treasurer pays claims duly allowed and transfers funds to the State Treasury Operations Fund as necessary to pay all costs and expenses of administering the program and all costs and expenses of administering the Office of the Treasurer (See Legislative History, Acts 2013, No. 92). Surpluses in the Unclaimed Property Reserve Fund are deposited into the State General Fund on a quarterly schedule.

Major Exemptions:

- (1) Municipalities, incorporated municipal boards, counties, county boards, and electric cooperatives are exempted from reporting property as abandoned.
- (2) Gift certificates, cards, or in-store credits issued by persons primarily engaged in a retail business.
- (3) Property held, due, and owing in a foreign country and arising out of a foreign transaction.

Legislative History:

Acts 1971, No. 63, p. 101

Established the procedure for the uniform disposition of unclaimed or abandoned property; and established distribution as follows: 20% into the trust fund for enforcement and claims; 80% to the State General Fund.

Acts 1991, 1st Ex. Sess., No. 788, p. 176

Accelerated state custody of unclaimed or abandoned tangible and intangible property by changing the dormancy period from seven to five years (provided one-time \$6 million windfall to State General Fund); and provided for current disposition of funds.

Acts 1996, No. 724, p. 1197

Transferred the administration of the Uniform Disposition of Unclaimed Property Act from the Department of Revenue to the State Treasurer's Office beginning October 1, 1996; amended reporting and delivery of property requirements; and also established new funds within Treasurer's Office with reserves accruing to the State General Fund on a quarterly basis.

Acts 1999, No. 381, p. 607

Provided that any warrant drawn by the state comptroller which is outstanding and unpaid one year from the date of issue is void and shall be reported and maintained through the unclaimed property program (formerly void after one year with payment to the State General Fund).

Acts 2004, No. 440, p. 755

Repealed the prior unclaimed property law and provided for the Uniform Disposition of Unclaimed Property Act of 2004; shortened the time period within which holders of property must report and pay to the state property that is presumed to be abandoned; and clarified that property resulting from demutualization of an insurance company is subject to the unclaimed property law.

Acts 2013, No. 91, p. 192

Allowed banks to treat debit cards and other payment instruments equally to other deposit products regarding abandonment; required the holder of property presumed abandon to electronically file a report to the Treasurer concerning the property and remit any monies electronically; and allowed the surviving child or children or, if none, the surviving parent or parents of an abandoned property owner who has died intestate to claim the abandoned property if certain conditions are met.

Acts 2013, No. 92, p. 203

Established funding for the Office of the State Treasurer through the newly created State Treasury Operations Fund merging the operations of Treasury Administrative, Unclaimed Property, and the SAFE Program; dissolved the Unclaimed Property Administrative Fund and the SAFE Program

Administration Fund and transferred any unobligated funds to the State Treasury Operations Fund; and required that all unobligated funds shall remain in the fund and be used for office operations.

Comparison with Neighboring States:

Florida

The law requires reports of abandoned property to be filed with the Department of Financial Services. Funds are deposited into the State School Fund, where the funds are used for public education, until being claimed by the owners or owners' heirs. No statute of limitation is placed on claiming abandoned property.

Georgia

Procedures for disposition of abandoned property are carried out by the Department of Revenue. Unclaimed property reverts to the State General Fund.

Mississippi

Abandoned property is handled by Office of the State Treasurer. A portion is set aside in the Historic Properties Financing Fund with its interest and income earned transferred quarterly to the Mississippi Landmark Grant Program for use by the Department of Archives and History. The remainder of the proceeds invested generate interest income for the state. Abandoned property remaining unclaimed for five years is transferred back to the original fund source.

Tennessee

The Department of Treasury administers the orderly disposition of abandoned property. Proceeds are deposited into the State General Fund.

Ad Valorem Tax

Constitutional Provisions:

(1) Levying Provisions:

Section 214 of the *Constitution of Alabama of 1901*, now appearing as Section 214 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended.

Limited total state property tax levied for state purposes to 6.5 mills.

Amendment No. 111 to Section 260 of the *Constitution of Alabama of 1901*, now appearing as Section 260 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended (proposed by Act 1956-82, 1st Ex. Sess., proclaimed ratified September 7, 1956).

Section 260 provided a tax of 3 mills for the Public School Fund to be applied to the support and maintenance of public schools and restated the authority of the Legislature to levy a total state ad valorem tax up to 6.5 mills, including the 3 mills provided by this section for the Public School Fund (See Legislative History-Acts 1935, No. 194). Amendment 111 replaced reference to the "public school fund" with "education fund" and reference to use of the 3-mill tax for the "support and maintenance of the public schools" with "support and furtherance of education."

(2) Exemption Provisions:

Section 91 of the *Constitution of Alabama of 1901*, now appearing as Section 91 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended.

Prohibited the Legislature from taxing the real or personal property of the state, counties or municipal corporations or cemeteries and certain property used exclusively for religious worship, schools or for purely charitable purposes. (See also Amendment No. 373).

(3) Other Provisions:

Statutory Authority:

Sections 38-4-12, 38-4-12.1, 38-4-13, and 40-1-1 through 40-11-5, *Code of Alabama 1975*, as amended.

Tax Base:

A property tax is levied on the owners of real and personal property within Alabama. All property is assessed in one of four classes at the ratios and maximums below:

Class	Description	Assessment Ratio	Annual Max. Payable (as % of Market Value¹)	Total Millage Equivalent
I	All property of utilities	30%	2.00%	66.7
II	All property not otherwise classified	20%	1.50%	75
III	All agricultural, forest and single-family, owner-occupied residential property, including owner-occupied residential manufactured homes, located on land owned by the manufactured home owner, and historical buildings and sites	10%	1.00%	100
IV	All private passenger automobiles and motor trucks of the type commonly known as "pickup trucks" used for personal use	15%	1.25%	83.3

¹ Total (including state and all applicable local levies) payable per taxpayer per property. The cities of Mountain Brook, Vestavia Hills and Huntsville are exempted from the ceiling by Amendment No. 373 "Lid Bill." Other cities may be exempted by constitutional amendment. The fair and reasonable market value of the property (to which the appropriate assessment ratio is applied) is determined by the local tax assessor and local Board of Equalization except in the case of public utility property, where the Department of Revenue makes such determinations.

Tax Rate:

State levy of 6.5 mills per dollar of assessed value. (A mill is 1/1000 of a dollar or 1/10 of a cent, so that 6.5 mills equal \$.0065 or .65% of \$1. One mill equals \$1 of taxes per \$1,000 of assessed value of property.)

Example of application of State millage rate to determine state ad valorem taxes due: Assuming a home has an appraised value of \$100,000 and the homeowner (taxpayer) is eligible for the \$4,000 state homestead exemption. (See Major Exemptions).

Sections 40-9-1 through 40-9-36 and Sections 40-9-38 through 40-9-39.1, *Code of Alabama 1975*, as amended, provide a listing of additional property tax exemptions for various organizations and for various types of property. Among these are a \$4,000 (in assessed value) homestead exemption from state taxes for those 65 or under (up to 160 acres) and a total exemption from state ad valorem taxes on homesteads for those over 65 years of age or those who are retired due to total and permanent disability, regardless of age, or who are blind, regardless of age. Numerous other statutes exempt other authorities, facilities, commissions, corporations, districts, and foundations from property taxes.

Legislative History:

Acts 1935, No. 194, p. 256

Levied the 3-mill tax specified by Section 260 of the *Constitution of Alabama of 1901*, plus 1-mill for needy Confederate soldiers and sailors and their widows, and 2.5 mills for general state purposes; set the assessment ratio of taxable property at 60% of fair market value and specified certain exemptions.

Acts 1951, No. 703, p. 1211

Established the State Department of Public Welfare (now the State Department of Human Resources) and provided that the surplus or residue of the proceeds from the levy of the 1-mill tax for the relief of needy Confederate soldiers and sailors and their widows be used for old age assistance purposes exclusively before any part may be expended for any other purposes of the department of public welfare.

Acts 1967, No. 502, p. 1215

Changed assessment ratio to 30% of market value.

Acts 1971, 3rd Ex. Sess., No. 116, p. 4339, (Constitutional Amendment No. 325, now appearing as Section 217 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended)

- (1) Created three classes of taxable property with the following state assessment ratios:
 - Class I - all property of utilities - 30%
 - Class II - all property not otherwise classified - 25%
 - Class III - all agricultural, forest and residential property - 15%
- (2) Provided that taxable property be assessed by local governments according to the classes and assessment ratios above; further provided that the Legislature could vary the local governments' assessment ratio for each class of property or fix a uniform ratio for all property and that such ratios could vary among counties (within a prescribed range of 15% to 35%); also provided for local adjustment of tax rates.
- (3) Established maximum amount of total ad valorem tax payable on one property in any one year at 1.5% of fair market value.
- (4) Restated certain exemptions.

Acts 1971, 3rd Ex. Sess., No. 166, p. 4413

Restated and further defined property classes and assessment ratios, provided additional exemptions; and established differing assessment ratios for counties, as authorized by Act 1971-116, 3rd Ex. Sess.

Acts 1973, No. 1216, p. 2062

Changed assessment ratios of several individual counties.

Civil Action No. 2877-N. (U.S. District Court for the Middle District of Alabama, Northern Division, March 8, 1974)

Required a statewide re-valuation of all real property in Alabama, fairly appraising each parcel of real estate at its current market value.

Civil Action 77-242-H. (U.S. District Court for the Southern District of Alabama, Northern Division, April 21, 1978)

Declared Section 40-8-1(e) *Code of Alabama 1975*, unconstitutional because the varying county assessment ratios provided therein created a disparity in rates among counties that was determined to be arbitrary and grossly unequal. However, the provision in Amendment No. 325 allowing the Legislature to vary assessment ratios among counties was upheld.

Acts 1975, No. 1187, p. 2319

Provided that 1% of the 1-mill ad valorem tax allocated for the relief of needy Confederate soldiers and sailors and their widows be remitted to the Alabama Historical Commission to provide for capital improvements and maintenance at the Confederate Memorial Park at Mountain Creek, Chilton County, Alabama.

Acts 1999, 2nd Ex. Sess., No. 665 p. 131

Exempted shares of stock from ad valorem tax.

Acts 2000, No. 242, p. 386 (Constitutional Amendment No. 669, now appearing as Section 269.07 of the Official Recompilation of the *Constitution of Alabama of 1901, as amended*).

Proposed an amendment to Section 269 of the *Constitution of Alabama of 1901, as amended*, to remove the supermajority vote requirement for the 1-mill countywide school tax to become effective.

(The proposed amendment was defeated at the 2010 General Election.)

Acts 2011, No. 544, p. 996

Enacted the Homeowners and Storm Victims Protection Act of 2011. Allowed single-family dwellings and the fully-developed lot owned by a home builder to be classified as residential property for ad valorem taxes. The reclassification terminates when one of the following occurs: (1) the classification has been in place for 24 months; (2) the owner no longer holds a valid license; or (3) the sale, transfer, or other action resulting in the single-family dwelling or fully-developed lot no longer being held by the person seeking reclassification.

Acts 2011, No. 710, p. 2192

Provided that residential property does not lose its classification as residential property for a period of 24 months if the property is not used as the owner's single-family dwelling because the property is not

Reinstated an income limit for persons retired due to total and permanent disability to qualify for a full homestead exemption at \$12,000 in net taxable income as shown on the person's and spouse's United States income tax return or other appropriate evidence.

Restored the following homestead exemption provisions that were changed by Act 2012-313, retroactive to August 1, 2012:

- Language interpreted by Attorney General Opinion to allow persons totally disabled to receive a full homestead exemption regardless of income.
- Language allowing persons over 65 with adjusted gross income less than \$12,000 on their State income tax return to receive a homestead exemption of \$5,000 of assessed value of the county portion of their ad valorem taxes.

The provision in Act 2012-313 that increased the income limitations for persons over 65 to receive a full (state and local) homestead exemption from \$7,500 on their Federal income tax return to \$12,000 was not changed.

Assessed a penalty for any person who knowingly and willfully gives false information for claiming a homestead exemption or assisting another person in claiming a homestead exemption. Authorized the Department of Revenue, by regulation, to issue certificates of disability to persons determined to be "permanently and totally disabled" and requires the Department to automatically grant a certificate to any person drawing any pension or annuity from the armed services, a private company or any governmental agency because they are permanently and totally disabled.

Additional Notes Regarding Local Levies:

- (1) Local governments may levy additional mills for schools or other purposes (a) under the provisions of Amendment No. 373 "Lid Bill" outlined under Constitutional Provisions, (b) by local constitutional amendment, or (c) by general constitutional amendment. A general constitutional amendment requires passage of a legislative act by 3/5 votes of both houses and statewide approval of voters. A local constitutional amendment requires passage of a legislative act by 3/5 votes of both houses with no dissenting votes cast and approval of the Local Constitutional Amendment Commission with subsequent approval only by voters in the affected area. If there is a dissenting vote, then statewide approval is required.
- (2) Section 16-13-231 of the *Code of Alabama 1975*, requires that each school system receive an amount of local tax proceeds equivalent to 10 mills of school district tax in order to participate in the Foundation Program.
- (3) Numerous constitutional amendments and local implementation acts authorize certain local governments to levy additional property taxes for specified purposes.
- (4) Countywide school mill revenues are distributed to local school districts on the basis of the total calculated costs of the Foundation Program for those local school districts.
- (5) District school mill revenues are distributed directly to the district school system.
- (6) Local governments may also levy and collect the special 2 mills property tax authorized by Amendment No. 373 (l), related to reimbursement for certain reappraisal costs, if they have not already done so.

Florida

All property, real and personal is assessed, whether the property is taxable wholly or partially exempt or subject to classification reflecting a value less than its just value. All real estate and personal property (other than homesteads or property valued on use) is assessed at its full cash value. The assessed value of homesteads cannot exceed the assessment for the prior year plus the lesser of (1) 3% of that assessed value or (2) the percent change in the Consumer Price Index. Agricultural land may be assessed based solely on its agricultural use. There is no state levy on real and tangible personal property.

Georgia

All real and personal property, unless expressly exempt, is assessed at 40% of its fair market value except bona fide conservation use property (up to 2000 acres) which is assessed at 40% of its current use value and property devoted to agricultural purposes (the first \$100,000 of fair market value and up to 2000 acres) which is assessed at 75% of the value of other realty. Timber is assessed at 100% of its fair market value at the time of its harvest or sale. For the 2015 tax year, the levy is 0.05 mills. For tax years beginning after 2015, there is no state tax levy.

Mississippi

All property, real and personal, is subject to taxation unless expressly exempted and is assessed in proportion to its value. The applicable rate is the total of all lawful levies. For purposes of assessment, taxable property is divided into 5 classes: Class I. Single-family, owner-occupied, residential real property, 10%; Class II. All other real property, 15%; Class III. Personal property, 15%; Class IV. Public utility property, 30%; and Class V. Motor vehicles, 30%. There is no state levy.

Tennessee

All property, real and personal, is taxed unless exempted. Real property of utilities is assessed at 55% of actual value, industrial and commercial property is assessed at 40% and farm and residential property is assessed at 25%. Tangible personal property is assessed at 55% for public utilities, 30% for industrial and commercial property, and 5% for all other tangible personal property. However, by statute, all tangible personal property, other than public utility property and industrial and commercial property, has no value. No state tax has been imposed since 1949.

The 4% general sales tax is also applied to the retail price as well as an additional 2% sales tax on ABC store sales (with distribution of 1.5% of the additional 2% sales tax to the municipality in which it is collected and distribution of the remaining .5% to the county in which it is collected).

The 4% general sales tax is also applied to such sales as well as an additional 2% sales tax on ABC store sales (with distribution of 1.5% of the additional 2% sales tax to the municipality in which it is collected and distribution of the remaining .5% to the county in which it is collected).

Florida

State chartered credit unions pay a maximum semiannual fee equal to \$500 plus \$0.15 for each \$1,000 of total assets. The Department can charge less by rule and currently charges \$50 for total assets not over \$500,000 with increasing charges up to a maximum fee of \$126,982.50 plus .0035% of assets over \$2 billion. State chartered credit unions that merge with another credit union pay a one-time merger fee of \$500. Nonrefundable filing fee is \$250.

Georgia

Fee charges are the same as for commercial banks which is from .18% of total assets of up to \$1.7 million up to a maximum fee of \$5,976,529 plus .002% of total assets of more than \$180 billion. Minimum fee is \$350. There is no application fee for a certificate of organization. The fees charged all depository institutions are adjusted at year-end to cover the costs of regulation. This is accomplished by surcharges or discounts to the above schedule. A discount of 10% was applied in FY 2014, FY 2015, and FY 2016. A fee is charged for the establishment of residential common bond credit unions at \$1,000. Mergers and application fees are \$1,000 and up to \$20,000 respectively, and both are discretionary fees.

Mississippi

An annual supervision fee of \$.10 per \$1,000 of assets (minimum fee of \$20 and a maximum of \$200) is due by statute. Other fees, including merger fees, range from \$500 to \$2,500 and are set by the commissioner.

Tennessee

The supervision fee assessed to each credit union is allocated in proportion to the total assets reported by the credit union in its June 30 Statement of Financial Condition. The commissioner may establish minimum assessment tiers, which shall not exceed \$5,000 and the maximum assessment shall not exceed 80% of the allocated amount as calculated for any credit union with an asset size greater than \$1,000,000,000. In determining the minimum assessment and the maximum assessment tiers, the commissioner may consider (1) the asset size of each credit union; (2) the concentration risk on department revenue sources; (3) the budgetary needs of the credit union division; and (4) other information that the commissioner considers relevant to the determination. There is an application fee of \$10 for a certificate of organization and a merger fee of \$300 .

Comparison with Neighboring States:

Florida

The Division of Treasury operates a cash management system to maximize investments through the Treasury Investment Pool (Pool). The Pool utilizes a combination of short and intermediate term fixed income investment strategies. Funds managed by the state and outside managers totaled \$22 billion as of July 2015. For FY 2015, state funds were invested in the following: 2.44%

in certificates of deposit and other cash equivalents; 52% in internal liquidity and short duration securities; and 45.56% in external intermediate securities and long duration.

Georgia

The Treasury operates a system of decentralized receipts and disbursements in that agencies maintain their own bank demand accounts. The Treasury serves as a repository for collected funds and attempts to maximize interest earned on idle balances until funds are disbursed to the various agencies. The Treasury maintains two investment custodial accounts – Georgia Fund 1 and the Georgia Extended Asset Pool. As of June 30, 2015, Georgia Fund 1 was invested 23% in overnight repurchase agreements; 10% in term repurchase agreements; 34% in banker's acceptances; and 33% in U.S. Government and agency securities. As of June 30, 2015, the Georgia Extended Asset Pool was invested 68% in term repurchase agreements; invested 19% in agency securities; and 13% in collateralized bank accounts.

Mississippi

The State Treasurer and the Executive Director of the Department of Finance and Administration meet on a monthly basis to determine the excess funds that are not needed for meeting the immediate requirements of the state using a cash flow model provided by the State Treasurer. The Treasury utilizes depositories statewide, and pays state warrants from three banks in Jackson, one of which serves as the main clearing bank. As of June 30, 2015, the General Fund/Special Fund portfolio was invested as follows: 5% in certificates of deposit; 7% in demand deposits; 17% in interest bearing deposits; 14% in treasury securities; 45% in U.S. government agency securities; and 12% in other authorized securities. The book yield of the General Fund/Special Fund portfolio was 0.86% as of June 30, 2015.

Tennessee

As of June 2015, the treasurer has over 80 depository accounts with banks, all of which are interest bearing accounts; however, many of these accounts now have 0% interest rate. The State Funding Board, consisting of the Governor, Secretary of State, Comptroller, Treasurer and Commissioner of Finance and Administration approves the Investment Policy for the State Pooled Investment Fund. Investment decisions are delegated to the Treasurer, who vests day to day management in the Chief Investment Officer. As of June 30, 2015, 10.71% of available funds were invested in collateralized time deposits with in-state financial institutions; 6.89% in a bank sweep account; 73.56% in U.S. Government and agency securities; and 8.84% in commercial paper. The average net yield on Tennessee's portfolio investments for 2014-15 was .09% of which administration fees account for .05%. Available cash is 100% invested considering daily conversions of idle cash into

the investment stream and the use of money market demand accounts. The weighted average maturity must be less than 120 days and no investment can have a maturity greater than 397 days.

Revenue Source:

The Alabama Trust Fund is a perpetual trust which was established in June 1985 with an initial trust capital of \$333,583,680 from cash bonus payments and royalties paid to the state from offshore oil and gas leases. The trust capital was augmented from time to time by the deposit of proceeds of any offshore oil and gas payment (including royalty payments) received after August 14, 1984. The lands division of the Department of Conservation and Natural Resources received 4% of the original lease payment of \$347,483,000 and receives 1% of any payments made subsequent to August 14, 1984. Beginning in fiscal year 2013, the Alabama Trust Fund receives 32% of the balance of oil and gas capital payments received by the state; however, this amount will be reduced by an amount necessary to make an additional transfer to the Capital Improvement Trust Fund to pay debt service on a \$50 million bond issue to construct and renovate National Guard armories pursuant to Amendment No. 887 to the *Constitution of Alabama of 1901*, as amended, and 33% is distributed pursuant to the annual spending plan. (See Amendment No. 856). The remaining 35% is transferred to: (1) the County and Municipal Government Capital Improvement Trust Fund (7%); and (2) the Alabama Capital Improvement Trust Fund (28%). Prior to fiscal year 2013, the Alabama Trust Fund received 65% of the balance of the oil and gas lease payments received by the state and the remaining 35% was distributed in the same manner as provided above. As of September 30, 2015, the trust capital of the Alabama Trust Fund totaled \$2.56 billion.

Acts 2006, No. 554, p. 1274

Provided that all driver license and nondriver identification card fees remain the same including the \$1.50 fee that goes to the county. However, prior to enactment of this act in counties in which the judge of probate was compensated by fees (Marion and Winston), 40% of each \$1.50 was retained by the judge and the remaining 60% was paid into the public highway and traffic fund of the county and in counties in which the judge is not compensated by fees, the entire amount (\$1.50) was paid into the public highway and traffic fund of the county. This act provides that the \$1.50 be remitted to the county general fund, rather than the public highway and traffic fund of the county and, in Marion and Winston Counties, the judge of probate (fund).

Acts 2009, No. 762, p. 2308

In determining whether the county is entitled to receive all or a portion of the guaranteed minimum, there is charged against this amount all receipts received from the state fees and any other applicable local act.

Note: The above distributions to counties take priority over the following distributions to ALERT and the State General Fund.

- (3) If available, \$500,000 annually is deposited into the Alabama Legacy for Environmental Research Trust Fund (ALERT) to be granted to Alabama public institutions of higher education with programs in environmental research and service. Also, see Distribution on following page regarding further reductions in total State General Fund amounts.
- (4) Revenues generated from the base fee on the disposal of hazardous wastes are distributed as follows: (1) 50% to each county having a commercial site for the disposal of hazardous waste or hazardous substances and (2) 50% to the State General Fund, with the first \$450,000 being earmarked for appropriation to the Alabama Department of Environmental Management.

²⁶ Includes collections from both the tank fuel fee and regulatory fee.

Distribution:

- (1) As a first charge against revenues collected from the per gallon tank fuel fee, there is appropriated to the Department of Revenue the amount of money necessary to pay its cost of administration, not to exceed \$150,000 annually.  - (12) Pipeline terminals, refinery terminals, rail and barge terminals and tanks associated with each.
 - (13) The Underground and Aboveground Storage Tank Trust Fund charge does not apply to any withdrawal from bulk of fuel oil to be used in the generation of electricity.

Legislative History:

Acts 1988, No. 378, p. 557

Created the Alabama Underground Storage Tank Trust Fund; provided for the tank fee to be credited to the Underground Storage Tank Trust Fund; and provided for third party claims and disbursements to be paid from the Fund.

Acts 1988, No. 537, p. 823

Provided for the regulatory program for underground storage tanks and a tank regulation fee to be used by the Department of Environmental Management.

Acts 1993, No. 628, p. 1062

Made the tank fee applicable to underground and aboveground storage tanks; authorized the assessment of an Underground and Aboveground Storage Tank Trust Fund charge and renamed the existing Trust Fund accordingly; provided that this charge would be the primary funding mechanism for the Alabama Underground and Aboveground Storage Tank Trust Fund; and included certain aboveground motor fuels storage tanks in the provisions of the statute.

Acts 1993, 1st Ex. Sess., No. 891, p. 165

Established the Underground and Aboveground Tank Trust Fund charge as a flat fee based on invoiced gallons ranging from \$1.50 to \$27. A portion of the Underground and Aboveground Storage

Tank Trust Fund was appropriated retroactively for the fiscal year ending September 30, 1994 and each subsequent fiscal year to the Department of Environmental Management for administrative costs related to the provisions of this act.

Acts 2003, 2nd Ex. Sess., No. 483, p. 1486

Created the new nine member Underground and Aboveground Storage Tank Trust Fund Management Board to, among other things, annually recommend to the Environmental Management Commission a fuel fee based on invoiced gallons of not less than \$.003 per gallon nor more than \$.01 to replace the flat fee schedule; established the initial fuel fee of \$.005 per gallon beginning January 1, 2004; authorized the Legislature to make additional appropriations above statutory limits from the Fund to the Department of Environmental Management for administrative expenses not to exceed 5% of the total fees collected; and removed the previous \$10 million cap on tank fee charges, which allows the fees to be collected continuously.

Acts 2009, No. 589, p. 1734

Clarified that motor fuel blends (biodiesel and ethanol) are subject to the fuel fee and receive the same financial protection from the Fund as other motor fuels; increased the maximum fuel fee that may be charged from \$.01 per gallon to \$.02 per gallon, based on the annual recommendation from the Trust Fund Management Board, beginning October 1, 2009.

Comparison with Neighboring States:

Florida

A tank registration fee of \$50 initially (with the exception of a replacement tank, which is \$25) and \$25 for annual renewal on underground tanks up to a 250,000 gallons capacity and \$1 thereafter for each additional 10,000 gallons. The maximum is \$1,000 per tank or \$2,500 per facility.

Georgia

In order to participate in the reimbursement benefits of the Underground Storage Tank Trust Fund, a potential claimant must pay an environmental assurance fee on petroleum products imported into the state of up to \$0.01 per gallon. No other fees or permits are required. The fee is only applicable to underground tanks.

Mississippi

Environmental protection fee to fund the Groundwater Protection Trust Fund of \$.004 per gallon and an annual facility fee of \$100 per tank.

Tennessee

Annual environmental assurance fee of \$250, comprised at \$125 annual fee and \$125 administration fee, for each non compartmentalized petroleum underground storage tank and for each compartmentalized tank.

Estate Tax and Generation Skipping Transfer Tax

Constitutional Provisions:

Article XI, Section 219 of the *Constitution of Alabama of 1901*, now appearing as Section 219 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended.

Authorized the Legislature to levy a tax of not more than 2.5% of the value of all estates, real and personal, money and public and private securities passing from any person who may die to any other person except if the estate is for the use of the father, mother, husband, wife, brothers, sisters, children, or lineal descendants of the grantor.

Amendment No. 23 to the *Constitution of Alabama of 1901*, now appearing as Section 219 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended.

Annulled the previous section of the Constitution relating to Estate Taxes and authorized the Legislature to provide for the assessment, levy and collection of a tax upon inheritances and for the levying of estate taxes not to exceed the amount to be credited against or deducted from any similar tax levied upon inheritances or estates levied by the U.S. Government. The state tax on inheritances and estates may be levied only so long as the federal tax is enforced and only to the extent of absorbing any credit allowed under the federal tax.

Statutory Authority:

Sections 40-15-1 through 40-15-19 and 40-15A-1 through 40-15A-14, *Code of Alabama 1975*, as amended.

Tax Base:

Estate tax on all net estates passing by will, devise or under intestate laws of Alabama. Generation-skipping transfer tax on any real property of a transferor located in Alabama and any tangible or intangible personal property of a transferor located in the State of Alabama.

Tax Rate:

The estate tax and the generation-skipping transfer tax is an amount equal to the tax credit allowable under the federal estate tax and federal generation-skipping transfer tax laws. The tax on nonresident estates is imposed on the proportionate share of the net estate which Alabama property bears to the entire estate.

Collections:

By the Department of Revenue within nine months after death. The amounts below represent Estate Tax collections. To date, no Generation-Skipping Tax has been received by the state.

Fiscal Year	Collections (\$)	Percent Change
2015	0	(100.00)
2014	7,653	(58.54)
2013	18,460	(93.90)
2012	302,790	645.55
2011	40,613	(57.66)

Source: Department of Revenue's "Revenue Abstract."

Distribution:

After the cost of collection is deducted, all proceeds are deposited into the State General Fund. The entire proceeds of the generation-skipping transfer tax are to be deposited in the State General Fund.

Status of the Federal and State Estate Tax:

The Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001, made major changes in the federal Estate Tax and the Generation-Skipping Transfer Tax. These tax changes were phased-in as follows:

Calendar Year	Estate/Generation-Skipping Transfer Tax Exemption	Highest Tax Rate
2002	\$1,000,000	50%
2003	\$1,000,000	49%
2004	\$1,500,000	48%
2005	\$1,500,000	47%
2006	\$2,000,000	46%
2007	\$2,000,000	45%
2008	\$2,000,000	45%
2009	\$3,500,000	45%
2010	taxes repealed	-
2011	\$5,000,000	35%
2012	\$5,120,000	35%
2013	\$5,250,000	40%

The American Taxpayer Relief Act permanently provided for a maximum federal estate tax rate of 40% effective January 1, 2013 and retained the exemption indexed for inflation (\$5.12 million in 2012). Under the previous federal law, Alabama estates were given a credit for estate taxes paid to the state. The

amount of that credit was based on a graduated rate schedule. The 2001 tax relief act reduced this state tax credit as follows:

Calendar Year	Credit Reduction
2002	25%
2003	50%
2004	75%
2005	Repealed

Because Section 219 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended, allows for the collection of an estate tax in Alabama only as long as a credit may be absorbed under a federal tax and due to the fact that no state credit has been provided for in any federal estate tax legislation since December 31, 2004, no estate tax has been collected in Alabama on estates with a date of death after December 31, 2004. It is the opinion of the Alabama Department of Revenue that should a state credit be authorized in a future federal estate tax, Alabama would once again be able to levy a tax.

Legislative History:

Acts 1935, No. 194, p. 256

Established the inheritance tax.

Acts 1939, No. 593, p. 965

Addressed the issue of taxation of certain intangible personal property (such as money, credit or securities) held in a trust, so as to levy the tax on such property unless the property is subject to taxation in another state; the other state must also provide a reciprocal tax exemption for similar Alabama property.

Acts 1951, No. 939, p. 1606

Provided for cost of collection for the Department of Revenue.

Acts 1983, No. 740, p. 1208

Changed the due dates of estate taxes following the decedent's death from fifteen months to nine months; and altered the interest rate for delinquent payments (one-time windfall for General Fund).

Acts 1988, 1st Ex. Sess., No. 837, p. 307

Levied a "generation-skipping transfer" tax, allowing Alabama to collect an amount equal to the tax credit allowable on the federal generation-skipping tax collected in Alabama.

Acts 1992, No. 186, p. 349

The Taxpayers' Bill of Rights Act amended the provisions of this tax relating to interest charged on late payments, methods of commencing actions for recovery of charges, and by repealing sections of the

Code of Alabama 1975, as amended, so that the administration of this tax is in line with new provisions of the law relating to taxpayers rights.

Acts 2001, No. 468, p. 622

Allowed the executor of any estate to file an affidavit which shall be sufficient authority to carry on the business of the estate; and provided for a personal liability provision to apply to the personal representative for any tax later determined to be due.

Acts 2002, No. 516, p. 1330

Provided for removal of the requirement that the affidavit filed by the personal representative contain the value of the estate and the acknowledgment by the personal representative of the personal liability for any tax later determined to be due.

Comparison with Neighboring States:

Florida

The tax on estates was the amount by which the maximum allowable federal estate tax credit for state death taxes paid to the various states exceeded all estate and inheritance taxes paid to the states (other than Florida). Florida is one of the states tied to the federal tax law. Since the Florida estate tax was based solely on the federal credit, estates with a date of death that occurred after December 31, 2004 were not taxed. In addition, a generation-skipping transfer tax is imposed in an amount equal to the amount allowable as a credit for state legacy taxes under IRS rules to the extent that the credit exceeds the aggregate amount of all constitutionally valid taxes on the same transfer actually paid in states other than Florida. The tax was also nullified after December 31, 2004. A representative of the Florida Department of Revenue stated that if the EGTRRA tax cuts were reinstated the tax would automatically be levied again in Florida.

Georgia

Imposed an estate tax of an amount equal to the maximum credit allowable under the federal estate tax laws. Georgia is also one of the states tied to the federal tax law. The estate tax does not apply to any estate with a date of death that occurred in a year for which the IRS does not allow a credit for state death taxes (after December 31, 2004). There is no generation-skipping tax in Georgia. A representative of the Georgia Department of Revenue stated that if the EGTRRA tax cuts were reinstated the tax would automatically be levied again in Georgia.

Mississippi

The estate tax was equal to the maximum amount of state death tax credit allowed by the federal estate tax laws. Mississippi is also one of the states tied to the federal tax law. Since the Mississippi

estate tax was based solely on the federal credit, estates with a date of death that occurred after December 31, 2004 were not taxed. There is no generation-skipping tax in Mississippi. A representative of the Mississippi Department of Revenue stated that if the EGTRRA tax cuts were reinstated the tax would automatically be levied again in Mississippi.

Tennessee

Beginning in 2013, the exemption amount from estate taxes is \$1,250,000. This amount increases annually until 2015 when it is \$5,000,000 and then will not be levied at all beginning in 2016.

Beginning January 1, 2012, the Tennessee gift tax was repealed. A Generation-Skipping Tax is imposed similar to the Alabama tax. Tennessee has an inheritance tax independent of the federal estate tax. An estate tax is also levied and is meant to pick up the difference between the state inheritance tax and the maximum credit allowed by federal law. The state inheritance tax, discussed above, is the sole tax levied on estates because of the lack of a federal credit.

Financial Institution Excise Tax

Statutory Authority:

Sections 40-16-1 through 40-16-8, *Code of Alabama 1975*, as amended.

Tax Rate:

6.5% of taxable net income.

Collections:

By Department of Revenue; annual returns are filed by institutions by April 15, and tax is deposited into the state treasury to be distributed each September 1.

Distribution:

After the cost of collection is deducted by the Department of Revenue, the amount of revenue generated by the additional .5% tax rate added by Acts 1999, 2nd Ex. Sess., No. 664, is distributed to the State General Fund. The remaining proceeds are distributed as follows: 25% to the State General Fund; 25% to the counties in which institutions are located; and 50% to the cities in which the institutions are located. Revenue from taxpayers with no physical presence in the state is distributed to the State General Fund.

²⁷ Gross collections.

²⁸ FY 2012 includes \$1,250,000 audit payment.

Exemptions and Credits:

Moneyed capital employed in the business and the shares of all financial institutions are exempted from ad valorem taxation. Financial institutions are allowed dollar-for-dollar credits against their excise tax liabilities for amounts paid in other taxes levied, including but not limited to sales and use taxes, utility taxes, and portions of certain local license taxes. The following tax credits may be claimed against this tax: Capital Tax Credit; the Alabama New Markets Development Act Tax Credit; the Full Employment Act of 2011 Credit; the "Heroes for Hire" Tax Credit Act of 2012; Employee Credit; and the Rehabilitation, Preservation, and Development Credit; the Alabama Veterans and Rural Jobs Act; and the Alabama Jobs Act.

Legislative History:

Acts 1935, No. 194, p. 256

Established financial institution excise tax at 6%.

Acts 1965, No. 276, p. 390

Provided that production credit associations were to be subject to the excise tax.

Acts 1978, No. 840, p. 1247

Provided that bank holding companies were to be recognized as financial institutions for excise tax purposes and were therefore exempted from state income taxation.

Acts 1991, No. 478, p. 866

Permitted incorporated municipalities to levy license taxes, but not in excess of those authorized by Section 11-51-130, *Code of Alabama 1975*, as amended. This tax may be credited against the tax levied by Section 40-16-4.

Acts 1993, 1st Ex. Sess., No. 852, p. 95

Expanded deductions from gross income to include the amount of aid or assistance provided to the State Industrial Development Authority.

Acts 1999, 2nd Ex. Sess., No. 664, p. 124

Increased the tax rate to 6.5% for all tax years beginning after December 31, 2000; and provided that all revenue generated from the increased tax rate be deposited to the State General Fund. The rate increase was contingent upon the ratification of the constitutional amendment proposed by Act 1999-600. The amendment was ratified as Amendment No. 662 on June 19, 2000.

Acts 1999, 2nd Ex. Sess., No. 665, p. 131

Directed the Department of Revenue to adopt regulations to prescribe the method of allocating and apportioning net income of financial institutions that do business in more than one state; provided

that businesses issuing credit cards to Alabama residents are subject to the tax; and provided that all revenue generated from taxpayers with no physical presence of the state is to be distributed to the State General Fund.

Legislative History:

Acts 1935, No. 194, p. 256

Acts 1971, No. 1413, p. 2408

Public Law 94-210, 90 Stat. 54, February 5, 1976

Limited the assessment rate of railroad transportation equipment, for purposes of state and local taxation, to the rate that applied to all other commercial and industrial property, and thereby reduced the assessment rate of the freight line equipment tax to 20% (current rate).

Comparison with Neighboring States:

Florida

Department of Revenue determines the assessed value of the average number of cars in Florida and certifies the same to the local taxing jurisdiction based on the number of track miles in the jurisdiction. The local taxing jurisdiction then applies the appropriate millage and bills the railroad and private car lines.

Georgia

Railroad equipment company cars are taxed at the regular rate imposed upon property in the state on a valuation based on the proportion of the entire value of the cars that the car wheel mileage made in Georgia bears to the entire car-wheel mileage of cars in the country. Additionally, cars are taxed at the regular rate imposed upon property in each local taxing jurisdiction on a valuation based on the proportion of the entire value of the cars that the track mileage in the local taxing jurisdiction bears to the entire track mileage of the state.

Mississippi

No comparable tax based on number of cars.

Tennessee

No comparable tax based on number of cars. The Tennessee Comptroller of the Treasury assesses railroads' equipment and property at 55% of value. The local taxing jurisdiction then applies the appropriate tax rate.

Gasoline Tax (and Gasoline Portion of the Motor Carrier Fuel Tax)

Constitutional Provisions:

Amendment No. 93 to the *Constitution of Alabama of 1901*, as amended by Amendment No. 354, now appearing as Section 111.06 of the Official Recompilation of the *Constitution of Alabama of 1901*, as amended.

Amendment No. 93 (proclaimed ratified November 19, 1952) provided that no monies derived from any fee, excise or license tax, levied by the state, relating to (1) registration, operation, or use of vehicles or (2) fuels used for propelling vehicles except pump taxes shall be expended for any purpose other than costs of construction, reconstruction, maintenance and repair of public highways and bridges, costs of highway rights of way, payment of highway obligations, the cost of traffic regulation, and the expense of enforcing state traffic and motor vehicle laws. Amendment No. 354 (proclaimed ratified November 10, 1976) expanded upon Amendment No. 93 to allow for the distribution of proceeds from charges for personalized license plates or tags in any manner prescribed by the Legislature.

Note: The above restriction does not apply to fees and taxes levied by counties and municipalities pursuant to authority granted by the state.

***The following provisions were enacted in 2011 by Act 2011-565, effective October 1, 2012. For previous provisions, see the 2012 Tax Guide on our website (www.lfo.alabama.gov).**

Statutory Authority:

Sections 40-17-320 through 40-17-363 (Gasoline Tax) and Sections 40-17-140 through 40-17-155 (Motor Carrier Fuel Tax), *Code of Alabama 1975*, as amended.

Tax Base:

Excise tax on the removal, import, sale/transfer in the bulk transfer/terminal system and blending of motor fuel (Gasoline Tax). Excise tax upon motor carriers who operate or cause to be operated motor vehicles on any highway in Alabama (Motor Carrier Fuel Tax).

Tax Rate:

The State of Alabama collects three levies, of \$.07, \$.05 and \$.04, for a total of \$.16 per gallon. Effective October 1, 2016, the total gasoline excise tax will increase to \$.18, which reflects the addition of the \$.02 gasoline inspection fee to the \$.04 excise tax (See also Agricultural Fees-Petroleum Commodities Inspection.) Excise tax on motor carrier fuel is at the same rate as in effect for gasoline.

Note Regarding Local Rates:

Counties may levy a county gasoline tax if the legislature has passed a local act authorizing the county commission to do so. The local act usually sets the parameters of the tax and specifies use of the funds. The local act may provide for a credit of municipal gas taxes paid within that county against the county tax owed or may exempt payment of a portion of the county tax in municipalities which levy a gasoline tax.

Municipalities may levy a municipal gasoline tax by city ordinance. One-half of the amount levied in the municipality may be levied in the police jurisdiction. The ability of municipalities to levy a city gasoline tax may be limited by a legislative act which levies a county gasoline tax - i.e., cities within the county may be prohibited from levying a municipal gasoline tax, but be given a share of the county tax.

Collections:

By the Department of Revenue each month (gasoline tax), and before the last day of April, July, October and January (motor carrier fuel tax).

Of the 55%, 45.4545% is distributed equally among all 67 counties and 54.5454% is distributed among all 67 counties on basis of population. 10% of each county's portion of the tax proceeds is shared with the municipal governing bodies located therein on the ratio of the population of each municipality to the total population of all municipalities in the county.
- (5) 60% of the net proceeds from the \$.05 per gallon levy are distributed to the Public Road and Bridge Fund. Of that amount, \$500,000 each fiscal year is used for the construction, maintenance and repair of public roads in the state parks system.

Alabama Municipal Insurance Corporation, et. al. v. State of Alabama 730 So. 2d 107 (1998)

In March 1995 eight domestic property and casualty companies filed suit in Montgomery County Circuit Court challenging the constitutionality of the Insurance Premium Tax Reform Act of 1993 (see Acts 1993, No. 679 above). This suit alleged that the economic development credits which allow property and casualty insurers to reduce their tax rate by an amount dependent upon (1) the number of offices in the state and the persons employed within each of those offices and (2) the value of real property investments made in the state discriminates in favor of large companies and is, therefore, unconstitutional. In June 1997, the Circuit Court ruled for the plaintiffs on the basis that the challenged tax credits violate the equal protection provisions of the Alabama Constitution and declared the premium tax as it applied to all property and casualty companies void. However, on May 22, 1998, the Alabama Supreme Court reversed the Circuit Court judgment and remanded the case to the trial court for further proceedings for an order consistent with the Supreme Court opinion. The Alabama Supreme Court denied a rehearing on February 19, 1999. On October 4, 1999, the U.S. Supreme Court denied the taxpayers' petition for a writ of certiorari and let stand the ruling of the Alabama Supreme Court.

Note Regarding Local Rates:

Counties may not impose premium, license, or privilege taxes on insurance companies (Section 27-4A-5). Municipalities may impose a tax on fire and marine insurance companies not to exceed 4% per \$100 of the gross premiums, less return premiums, on policies on property located in the municipality (Section 11-51-120).

Comparison with Neighboring States:**Florida**

Gross premium (less reinsurance and return premiums or assessments) tax on foreign insurers at the following rates: 1% for annuities (with certain exceptions); 0.75% of gross underwriting profit for wet marine and transportation insurers; 1.6% for the multiple-employer welfare arrangement, the commercial self-insurance fund, professional liability risk management trust fund, and medical malpractice self-insurance fund; and 1.75% for all others (property and casualty, life and health, including Blue Cross/Blue Shield). Domestic insurers maintaining their home office in Florida are exempt. Insurers are also subject to the Florida corporate income tax. Every insurer authorized to transact insurance for commercial property in Florida must collect, in addition to the applicable premium charge, an annual surcharge from each holder of a policy for fire, allied lines, or multi-peril insurance. The surcharge is imposed at a rate of 0.1% on the gross direct premium written on commercial property located in Florida. The insurer remits the surcharge to the Department of Revenue. There is also a \$2 per policy annual surcharge on homeowner's, mobile homeowner's, tenant homeowner's, and condominium unit owner's policies and a \$4 annual surcharge on commercial fire, commercial multi-peril, and business owner's property insurance policies. The State Department of Insurance also collects a fire marshal's assessment of 1% of gross premiums from fire insurance on property in Florida. Insurers are allowed a credit against the premium tax for intangibles taxes, corporate income taxes and emergency excise taxes paid, and a credit equal

to 15% of the salaries (excluding commissions) paid to non-licensed employees within Florida. The total credit, exclusive of intangibles taxes, may not exceed 65% of the premium tax liability. Insurers are allowed credit against tax due for 100% eligible contribution to an eligible nonprofit scholarship funding organization. A credit is allowed for 50% of community contributions for projects in enterprise zones undertaken by an eligible sponsor that is designed either to (1) construct, improve, or substantially rehabilitate housing or commercial, industrial, or public resources and facilities or (2) improve entrepreneurial and job-development opportunities for low-income persons. No insurer can receive more than \$200,000 in annual credits for all approved community contributions made in any one year. Unused credit may be carried forward for up to five years. Florida also allows certified capital company investment credits. Foreign companies, other than those with a regional home office in Florida, are subject to retaliatory provisions.

Georgia

A gross premium tax (less return premiums) of 2.25% on domestic and foreign insurers (including Blue Cross/Blue Shield and annuity considerations); surplus line brokers and independently procured coverage pay 4%. However, if 25% of a firm's qualifying total assets are invested in bonds of the state or its municipal governing bodies, Georgia property, or loans secured by liens on such property, the premium tax is 1.25%; if the amounts so invested equal 75% of total qualifying assets, the tax rate is .5%. There is an additional county tax of 1% on life policies on residents of county unincorporated areas and up to 2.5% on other lines for counties and municipalities (with the 1% life deductible from state premium tax due). There is an additional 1% on fire insurance companies. Foreign companies are subject to retaliatory taxes. Captive insurers are taxed in the same manner as other domestic insurance companies. Georgia allows job tax credits for business enterprises based on county-tiered zones.

Mississippi

The tax for domestic and foreign companies is 3% of gross premiums, less premiums received for reinsurance, return premiums, cash dividends, and cancellations. Surplus lines are taxed at 4%. There is no tax on annuities. Mississippi has a voluntary basic health insurance coverage program designed to provide health insurance coverage to persons under age 65 who are accepted by an approved carrier and who have been without private health insurance coverage for at least one year or whose family income does not exceed 150% of the federal poverty level. Contracts of such insurance coverage offered by approved carriers are exempt from the insurance premiums tax on domestic and foreign insurance companies. A fire marshal tax of 1% is levied based on property insured in Mississippi. The gross premium tax on foreign and domestic companies is reduced by

the net percentage of total assets invested in Mississippi up to a maximum of 50%. Foreign companies are subject to retaliatory taxes.

Tennessee

Gross premium tax on all foreign and domestic property and casualty insurance companies is 2.5% (\$150 minimum) general rate plus an additional tax of .75% on fire insurance companies on that portion of the premium applicable to the fire risk (but property and casualty rates may be reduced by up to 75% based on percentage of total assets invested in Tennessee); annuity, pension, or profit-sharing plans exempt from federal income tax or qualifying for certain income tax advantages, pay no tax (nonqualified annuities pay at the life insurance rate). Domestic and foreign life and health insurance companies, including Blue Cross/Blue Shield, pay 1.75% (\$150 minimum) of gross premiums; captive insurance company direct premiums are taxed at 0.4% of the first \$20 million and 0.3% for each dollar thereafter. Also captive insurance companies are taxed on assumed reinsurance at 0.225% of the first \$20 million, 0.15% of the next \$20 million, 0.050% of the next \$20 million, and 0.025% for premium above \$60 million. Minimum of \$5,000 to maximum of \$100,000 aggregate tax and title insurance companies are taxed at 2.5%. Health maintenance organizations, including limited health service organizations, are taxed at 5.5% of gross dollar amount collected. Foreign companies are subject to retaliatory taxes. Surplus lines are taxed at 5%.

Constitutional Provisions:

Section 96 to the *Constitution of Alabama of 1901*

¹ The amount of \$17 for the General Fund of the municipality assumes that the municipality has, by ordinance, adopted the maximum amount of \$10 pursuant to Section 12-14-14. If a municipality's ordinance sets a cost of less than \$10 for the municipal general fund, the \$17 local cost should be reduced to the total of the amount set by ordinance plus \$5.

² Section 12-19-251.1 provides that these funds may be retained in the General Fund of the municipality to defray the cost of providing representation for indigent defendants in municipal court. Any excess over such costs is remitted to the treasury of the State of Alabama to the credit of the Fair Trial Tax Fund.

³ The fee is distributed to the Alabama DNA Database Fund (currently \$11) and the Citizenship Trust (currently \$1) as specified in Act 2009-768, with one-half of the receipts distributed to the Trust being allocated to the David Mathews Center for Civic Life.

⁴ Pursuant to Act 2010-438, the Solicitor's Fee is distributed as follows: (1) \$3 of the fee imposed will be retained by the clerk of the circuit court and used for operation of the clerk's office and (2) the

remainder will be deposited into the Solicitor's Fund or District Attorney's Fund in the county where the case is heard or to the fund that may be hereafter prescribed by law for the solicitor's fee. This act does not supersede local laws enacted on or after the effective date of this act. Upon repeal of a local act establishing a solicitor's fee, the county shall collect the fee pursuant to this act.

⁵ Section 11-47-7.1 authorizes any municipal governing body, by majority vote, to levy and assess additional court costs and fees up to an amount not to exceed court costs and fees in the district court of the county for a similar case. These funds must be paid into a special municipal fund, known as the "Corrections Fund," and used exclusively for the purchase of land for, and the construction, equipment, operation, and maintenance of a municipal jail, other correctional facility, if any, court complex or any juvenile detention center.

⁶ Act 2012-535, effective June 21, 2012, increased municipal court costs as follows:

For Non-Traffic Misdemeanor/Municipal Ordinance cases, assessed an additional \$40 court cost: \$10 to the "Municipal Court Judicial Administration Fund"; \$20 to the "State Judicial Administration Fund"; \$5 to the "Presiding Circuit Judge's Judicial Administration Fund"; and \$5 to the "Circuit Clerk's Judicial Administration Fund."

For Traffic cases (excluding "parking", "seat belt" and "open container"), assessed an additional \$26: \$2 to the "Alabama Peace Officers' Annuity and Benefit Fund"; \$10 to the "Municipal Court Judicial Administration Fund"; \$9.34 to the "State Judicial Administration Fund"; \$2.33 to the "Presiding Circuit Judge's Judicial Administration Fund"; and \$2.33 to the "Circuit Clerk's Judicial Administration Fund."

⁷ Act 2012-535, effective June 21, 2012, created the "Bail Bond Filing Fee." \$35 on each executed bond (applies to all misdemeanor cases and "Serious Traffic Offenses") is distributed as follows: \$3.50 to the "Municipal General Fund"; \$15.75 to the "Municipal Court Judicial Administration Fund"; and \$15.75 to the "Solicitor's Fund" in the county. Where multiple charges arise out of the same incident, the filing fee shall be assessed only on one charge. In addition to the \$35 "Bail Bond Filing Fee", a "Bail Bond Fee" of 3.5% of the total face value of the bail bond or \$100, whichever is greater, but not to exceed \$450 is assessed at adjudication. This new fee applies to all misdemeanor cases and "Serious Traffic Offenses." Since \$1,000 is the maximum bail range for Municipal Courts pursuant to the Bail Schedule provided in Rule 7.2 of the Alabama Rules of Criminal Procedure, \$100 will almost always be the amount of the "Bail Bond Fee," since 3.5% of \$1,000 is only \$35. Where a person is released on a recognizance or signature bond, including uniform non-traffic cases cited pursuant to Rule 20, Alabama Rules of Judicial Administration (ARJA), the "Bail Bond Fee" will be \$25.

Pursuant to Section 12-19-152, fines collected in misdemeanor and felony cases in district and circuit courts are remitted to the State General Fund unless otherwise provided. (See Sections 33-5-32, 33-5-51, 33-5-61, 33-5-62 and 33-5-66 for disposition of fines for violation of provisions regarding the registration and operation of vessels; Section 9-11-6 for disposition of fines for violation of provisions of game and fish laws; Section 9-13-65 for disposition of fines for violation of certain laws regarding forest and forest products; Section 32-5A-191 for disposition of fines for DUI; Section 32-5A-191.3 for disposition of fines for operation of a vessel while DUI; and Section 32-6-233.1 for disposition of fines for unauthorized use of a handicapped parking place.) Pursuant to Section 12-19-154, fines and forfeitures collected in municipal ordinance cases in district and circuit courts are remitted 90% to the municipality and 10% to the State General Fund, except fines collected for violation of Section 32-5A-191 (DUI) pursuant to a municipal ordinance which are remitted as provided in Section 32-5A-191(m). Section 11-45-9 limits fines in municipal courts to \$500, except as otherwise provided.

Comparison with Neighboring States:

Florida

Court costs are deposited into the General Revenue Fund, the State Courts Revenue Trust Fund, the Clerks of the Court Trust Fund, the Administrative Trust Fund, and the Court Education Trust Fund. Additionally, on the local level, the counties retain a portion of the court costs they receive. State courts are funded through appropriations on the state level, while other courts are funded partially through the state and partially through the counties.

Georgia

Georgia's judicial system is not a unified system. The state appropriates funds to operate the appellate courts and provides a portion of the funds required to operate the general jurisdiction trial courts (Superior Courts) and juvenile courts. Limited jurisdiction courts are funded entirely by local governments.

Mississippi

Court costs are deposited into the State General Fund and into the Judicial System Operation Fund, which is used for the operation of the judicial system (subject to appropriation by the Legislature). Judicial branch appropriations fund the Supreme Court, appellate courts, the Administrative Office of Courts, circuit courts, chancery courts, and county courts.

Tennessee

Tennessee operates a non-unified court system. The state appropriates funds to operate the state courts and trial courts (salaries, staff, and technology). Other costs are funded through local funding bodies.

Tennessee

General state sales tax rate of 7% and a local option tax of 2.75% imposed by city and/or county governments applies to rental and leasing of tangible personal property. Generally, the local option tax is required only on the first \$1,600 of the income from the rental of statutorily defined single articles of tangible personal property. Legislative History:

Acts 1987, No. 707, p. 1245

Created the Alabama Mothers and Babies Indigent Care Trust Fund and the Alabama Mothers and Babies Indigent Care Trust Board to administer the fund; and provided that funds from the trust are to be transferred to the Alabama Medicaid Agency to implement the Medicaid program in Alabama. The source of funds to the trust include appropriations, grants, contributions, and donations and transfers from the two state teaching hospitals.

Acts 1991, No. 124, p. 148

Provided for a privilege tax of \$.10 per prescription with a retail price of \$3 or more on all providers of pharmaceutical services and provided for the distribution of such funds to the Alabama Health Care Trust Fund to be used for indigent health care and operation and maintenance expenses of the Alabama Medicaid Agency. (See Note following Act 1991-127).

Acts 1991, No. 125, p. 152

Created the Alabama Health Care Trust Fund as a revolving fund into which Medicaid Provider Taxes are to be deposited. (See Note following Act 1991-127).

Acts 1991, No. 126, p. 153

Imposed an annual privilege tax of \$999.96 per bed on nursing facilities which have an agreement to participate in the Alabama Medicaid Program. (See Note following Act 1991-127).

Acts 1991, No. 127, p. 158

Defined a disproportionate share hospital and levied a privilege tax on them at the rate of 65% of their Medicaid occupancy, with the annual tax due to be determined by the Alabama Medicaid Agency; and provided for the Medicaid Agency to develop methodology for reimbursement to disproportionate share hospitals. The act had a "hold harmless provision" (subsequently disallowed by the federal government and eliminated in Act 1992-440) providing a reserve from which hospitals were to be assured a disproportionate share reimbursement not less than the taxes paid each fiscal year.

Note: Pursuant to PL 102-234, the provider specific taxes levied in 1991 and described above were disallowed by the federal Health Care Financing Administration as an approved method of financing the state share of financial participation in the Medicaid program. Broad-based taxes (a uniform tax on those in the same provider class) were given federal approval and were subsequently enacted in the 1992 Regular Session.

Acts 1992, No. 418, p. 849

Defined a public hospital and provided for a monthly transfer of funds, in lieu of a tax, to be made by all public hospitals to the Alabama Medicaid Agency, in an amount to be determined by the Medicaid Agency, to be credited to the Alabama Mothers and Babies Indigent Care Trust Fund. Effective January 10, 1993 through September 30, 1995.

Acts 1992, No. 440, p. 871

Amended the provider tax on nursing homes to provide that the tax shall be on all such facilities; levied a tax on all nonpublic hospitals; excluded public hospitals, state-owned teaching hospitals, and certain rehabilitation facilities; and provided for the Alabama Medicaid Agency to make an annual determination regarding the methodology of disproportionate share reimbursement to hospitals and guaranteed that such amount would never be less than the 1992 level. Effective January 10, 1993 through September 30, 1995.

Acts 1993, No. 314, p. 471

Repealed the hospital tax and provided for a refund to those nonpublic hospitals which were paying the tax under Act 1992-440, for the month of April 1993 and thereafter; repealed the criteria for a disproportionate share hospital (DSH); established that the Medicaid Agency will, at the beginning of each fiscal year, promulgate regulations regarding disproportionate share reimbursements to disproportionate share hospitals (criteria for defining these DSH hospitals will also be developed by the Medicaid Agency, in accordance with federal guidelines); and provided that DSH payments to hospitals would not be less than the DSH cap established by the federal Health Care Financing Administration (\$147 million), which was the 1992 level.

Note: Effective October 1, 1995, federal rules limited DSH payments to the cost of uncompensated care, with the exception of "high" DSH hospitals which can be paid a greater amount.

Acts 1997, 1st Ex. Sess., No. 901, p. 277

Levied a supplemental privilege tax of an additional \$200.04 per bed annually, effective until December 31, 1999, on every nursing facility in the state. (Act 1999-409 deleted the expiration date). Authorized the Department of Revenue, upon the advice of the Alabama Medicaid Agency, to reduce this supplemental privilege tax if such reduction is required to ensure that the total revenues from the aggregate of this supplemental privilege tax and the privilege tax during the fiscal year are less than or equal to 6% of the total revenues received by the nursing facilities subject to the tax.

Acts 1999, No. 409, p. 729

Acts 2002, No. 414, p. 1058

Effective July 1, 2002, provided that Alabama citizens would pay a privilege tax of \$.10 on all prescriptions filled in the state; and removed the prescription cost \$3.00 or more.

Acts 2004, No. 532, p. 1120

Increased the supplemental privilege tax for each bed in a nursing home facility from \$200.04 per bed to \$900 per bed making the total annual privilege tax \$1,899.96 per bed in a nursing facility; and increased the nursing facility provider's cap on reportable cost per patient from cost plus 10% to cost plus 11%.

Acts 2009, No. 549, p. 1454

Levied a hospital assessment on privately owned hospitals of 5.38% of net patient revenue for fiscal years 2010 and 2011.

Acts 2010, No. 520, p. 879

Acts 2013, No. 240, p. 577

Extended the current supplemental privilege assessment and monthly surcharge on nursing home beds by two years through August 31, 2015.

Acts 2013, No. 246, p. 595

Extended for three years the 5.5 percent assessment on net patient revenue that is levied on all private hospitals through August 2016. If approved by the Centers for Medicare and Medicaid Services, this act would also extend the use of Certified Public Expenditures (CPE) for outpatient services provided by Disproportionate Share Hospitals and discontinue use of CPEs for all other inpatient and outpatient hospital services; and provided that beginning in FY 2014, inpatient and outpatient services provided to Medicaid recipients by public and state owned hospitals shall be funded using intergovernmental transfers.

Acts 2015, No. 458

Extends the \$1,603.08 supplemental privilege assessment and \$43.70 monthly surcharge on nursing home beds through August 31, 2017.

Florida

Nursing facilities are responsible for an assessment which is calculated monthly on a per resident basis, excluding Medicare resident days. The rate is based upon volume.

For nursing homes that have over 53,000 Medicaid bed days per year the rate is \$3.13 per patient bed day and for those under 53,000 Medicaid bed days the rate is \$27.38 per patient bed.

Georgia

A hospital provides payment of 1.45% of net payment revenue.

Mississippi

Health care facility assessment – An assessment equal to the maximum rate allowed by federal law or regulation is levied upon each licensed nursing facility, licensed intermediate care facility for individuals with intellectual disabilities, and each licensed psychiatric residential treatment facility.

Hospital assessment – Effective for state fiscal years through 2018, and subject to approval by the Centers for Medicare and Medicaid Services, an annual assessment on each licensed hospital is imposed on each non-Medicare hospital inpatient day at a rate that is determined by dividing the sum of the prescribed state matching funds percentage for the Mississippi Medicaid Program plus the nonfederal share necessary to maximize the Disproportionate Share Hospital (DSH) and inpatient Medicare Upper Payment Limits (UPL) payments and inpatient hospital access payments, by the total number of non-Medicare hospital inpatient days.

An additional annual assessment on each licensed hospital is imposed on each non-Medicare hospital inpatient day at a rate determined by dividing 25% of any provider reductions in the Medicaid program for that fiscal year up to the following maximum amount plus the nonfederal share necessary to maximize the Disproportionate Share Hospital and inpatient Medicare Upper Payment Limits payments and inpatient hospital access payments, by the total number of non-Medicare hospital inpatient days.

Tennessee

Provider taxes in Tennessee specifically designated for Medicaid; however, Health Maintenance Organizations are assessed 2% of enrollee revenue; and Preferred Provider Organizations are assessed 2% of enrollee revenue. Hospitals pay an assessment fee of 4.52% of net patient revenues. Intermediate care facilities for individuals with intellectual disabilities are assessed at a rate of 5.5% of the monthly gross receipts.

The aggregated amount of assessments for all nursing facilities from July 1, 2015, through June 30, 2016, shall equal four and three-quarters percent (4.75%) of the net patient service revenue. For any nursing home licensed on July 1, 2015, the annual assessment for each nursing facility shall be determined as follows:

- (1) Any licensed nursing home that is licensed on July 1, 2015, for fifty (50) beds or fewer shall pay an assessment rate equal to three percent (3%) of net patient service revenue,

divided by all non-medicare days. The facility shall pay the per diem rate for each of its non-medicare days;

- (2) Any licensed nursing home that on July 1, 2015, operates as part of a continuing care retirement community shall pay an assessment rate equal to three percent (3%) of net patient service revenue, divided by all non-medicare days. The facility shall pay the per diem rate for each of its non-medicare days;
- (3) Any licensed nursing home providing fifty thousand (50,000) or greater medicaid patient days for the twelve (12) months ending December 31 of the prior year shall pay an assessment of two thousand two hundred twenty-five dollars (\$2,225) per licensed bed per year. The facility shall pay the per bed rate on all beds licensed as of July 1 of each year.
- (4) Any nursing facility that is initially licensed and commences operations after July 1, 2015, shall pay FY 2015-2016 a prorated assessment equal to two thousand two hundred twenty-five dollars (\$2,225) per licensed bed per year, prorated to accrue from the date the nursing facility became certified to participate in TennCare.
- (5) Any licensed nursing home not meeting the above criteria shall pay an equal annual per facility assessment at such amounts necessary to ensure that the aggregated amount of assessments for all nursing facilities from July 1, 2015, through June 30, 2016, shall equal four and three-quarters percent (4.75%) of the net patient service revenue; and
- (6) Any facility that ceases to be licensed by the department of health shall not be required to pay assessment fees accruing after the date of its licensure termination.

- (2) Natural gas lawfully injected into oil or gas pools or reservoirs.
- (3) Natural gas lawfully injected into the earth for the purpose of lifting oil or gas. However, if any gas injected is sold or injected into underground storage facilities as defined in Section 9-17-150 et seq., Code of Alabama 1975, as amended, then the gas is not exempt.

Legislative History:

Acts 1945, No. 2, p. 20

Established the oil and privilege tax at 4% of the gross value; and provided exemptions from ad valorem taxation for all oil or gas produced, for leases in production, and for oil or gas beneath producing properties to a maximum of 40 acres.

Acts 1971, No. 2057, p. 3317

Increased the rate to 6% for wells producing 26 barrels or more per day and allowed wells beginning production after September 1, 1979, to be taxed at 4% for the first 10 years of production; and provided that additional collections be distributed 50% to State General Fund and 50% to county.

Acts 1980, No. 708, p. 1189

Increased the rate to 6% for well units producing 40 or more barrels per day and allowed well units producing less than 40 barrels per day to be taxed at 4% of the gross value at the point of production.

Acts 1983, 1st Ex. Sess., No. 39, p. 39

Increased the rate to 8% for wells producing 10 or more barrels of oil per day; and allowed well units producing less than 10 barrels per day to be taxed at 4% of gross value at the point of production; distribution formula changed to allow additional 2% to be deposited into the State General Fund; and removed 10-year exemption.

Acts 1983, 4th Ex. Sess., No. 889, p. 116

Provided that all oil or gas produced by offshore production would be taxed at a rate of 6% of gross value at point of production to be distributed 90% State General Fund and 10% to county; raised 10

barrel per day exemption (taxed at 4% rather than 8%) to 25 barrels per day; all wells producing 25 barrels of oil per day or more would be taxed at 8%; and provided that any gas well producing 200 cubic feet of gas per day or less would be taxed at 4% rather than 8%.

Acts 1984, No. 328, p. 749

Acts 1990, No. 652, p. 1249

Redefined offshore production as submerged lands, which means that if submerged lands are located within the police jurisdiction or corporate limits of any municipality, those submerged lands would be defined as onshore lands for the purpose of distributing the tax, therefore shifting the distribution of oil and gas privilege tax receipts from 90%-state, 10%-local to approximately 70%-state, 30%-local.

Acts 1996, 2nd Ex. Sess., No. 877, p. 1688

Acts 2009, No. 147, p. 284

Excluded deep water production of oil and natural gas from the privilege tax based on the gross value at the point of production and levied a new tax on deep water production computed at the rate of 3.65% of the gross proceeds attributable to the offshore production.

Note Regarding Local Taxes:

A county or municipality may not establish, levy, impose, or collect, as a condition of doing business, any tax, fee, or license, on or with respect to the production, processing, or transportation on any oil or gas produced in Alabama and on which severance taxes have been paid to Alabama. The limitation imposed on counties and municipalities does not apply to any county or municipality which does not receive a share of the severance tax levied on onshore production.

Comparison with Neighboring States:

For tertiary oil and mature field recovery oil, a tiered rate structure is in effect that is based on the sales or market price for a barrel of oil. The rate ranges from 1% of the gross value of oil on the value of oil \$60 and below to 9% of the gross value of oil on the value of oil \$80 and above. Ordinary oil production, 8% of gross value; small well oil, 5% of gross value; escaped oil is an additional 12.5%; gas, \$.344 per mcf, effective July 1, 2015 (rate set annually, based on gas fuels producer price index); sulfur, \$6.13 per ton effective July 1, 2015 (rate set annually, based on sulfur producer price index).

The state imposes miscellaneous license and inspection fees that are generally regulatory. Counties and incorporated municipalities may levy local business taxes for the privilege of engaging in or managing any business, profession, or occupation within their jurisdictions.

Georgia

Annual licenses are issued at varying rates for persons engaging in certain businesses or occupations. With certain exceptions, counties and incorporated municipalities may levy occupational license taxes for engaging in a business, profession, or occupation within their jurisdictions.

The effect was a tax at the rate of 4% on first \$40,000, 3% on next \$20,000 and 2% on any additional (over \$60,000) monthly charges. Provided that receipts be deposited into the state treasury.

Acts 1992, No. 623, p. 1466

Provided for a separate (from electricity, water, and gas utilities) telephone gross receipts tax at an increased rate and amended Section 40-21-121 to provide that the cellular telephone tax rate is tied to the telephone gross receipts tax rate (if that rate is lower than 4%) rather than to the gross receipts tax rate of other utilities. The effect of this provision was to maintain at 4% the tax rate on the first \$40,000 of monthly charges, increase from 3% to 4% the tax rate on the next \$20,000 of monthly charges, and increase from 2% to 3.7% the tax rate on any additional (over \$60,000) monthly charges.

Acts 1997, 1st Ex. Sess., No. 867, p. 208

Made the sale of prepaid telephone calling cards subject to the sales and use tax and exempted the usage of those cards from the utility gross receipts tax and the cellular telecommunications services tax.

Acts 1998, No. 195, p. 338

Provided for the incorporation of the Alabama Revolving Loan Fund Authority to issue up to \$12 million in bonds for the purpose of making grants to the 12 regional planning commissions. This act pledged for the repayment of the bonds as much as necessary of the cellular radio telecommunication services tax, subject to ratification of the constitutional amendment proposed in Act 1997-356. The proposed amendment was ratified and became Amendment No. 616 to the *Constitution of Alabama*.

Acts 1999, No. 399, p. 663

Provided that broadband personal communications services would be taxed under the cellular telecommunications tax, rather than the utility gross receipts tax, and included commercial mobile radio services in the definition of cellular services to which the cellular telecommunications tax applies; and provided that any cellular telecommunication services provider who accepts, in good faith from a purchaser, a cellular telecommunication services tax exemption form provided or approved for use by the Department of Revenue would not subsequently be liable to the Department of Revenue or others for the tax on sales to that purchaser.

Acts 2001, 4th Ex. Sess., No. 1090, p. 1120

Brought Alabama's Cellular Telecommunications (Mobile Telecommunications) Tax provisions into alignment with the federal Mobile Telecommunications Sourcing Act. The provisions of the act which relate to alignment with that federal act were effective for customer bills issued on or after August 2, 2002, (pursuant to federal law); amended the definition of "monthly charges" upon which the tax is based to expand the tax base to include all airtime charges, including toll and roaming charges (formerly local airtime charges only), effective for all customer bills dated on or after February 1, 2002, regardless of when the services being billed were provided; increased the tax rate from 4% on monthly charges less than \$60,000 and \$4,020 plus 3.7% of excess over \$60,000 on monthly charges over \$60,000 to 6% beginning with bills dated February 1, 2002; authorized home service providers furnishing mobile telecommunications services to deduct and retain .9% from the tax billed on or after February 1, 2002 and until October 1, 2002, at which time the amount retained and deducted decreased to .25% of the tax billed; changed the distribution of the remaining tax receipts, after payment of principal and interest on Alabama Revolving Loan Fund Authority bonds, from the State General Fund to current distribution; and levied a tax on mobile radio communication services at the same rate as the Mobile Telecommunications Tax, effective February 1, 2002.

Acts 2007, No. 279, p.378

Increased the aggregate amount of bonds that may be issued by the Alabama Revolving Loan Authority for the purpose of making grants to the 12 regional planning and development commissions from \$12 million to \$24 million.

There is also a local surtax that varies by jurisdiction. All taxes are paid by the customer.

Georgia

State sales tax rate of 3% plus additional county surtax of up to 3% is applied to cellular telephone (1) monthly access fees and set monthly fees; or (2) vertical services (call-waiting, call-forwarding, etc.) charges. The tax is not applied to separately stated airtime charges or voicemail services.

Mississippi

State sales tax of 7% is applied to telecommunications gross receipts, including mobile and cellular telephone.

Tennessee

Tennessee Valley Authority In Lieu of Taxes Payments

Statutory Authority:

16 USC, Section 831 and Sections 40-28-1 through 40-28-5 and 41-10-570, *Code of Alabama 1975*, as amended.

Tax Base:

The Tennessee Valley Authority (TVA) is a federal agency which makes in-lieu-of-taxes payments to the states in which its power properties and operations are located.

Tax Rate:

The TVA pays 5% of its gross revenues from the sale of power in the preceding fiscal year to the states in which TVA carries on power operations and in which TVA has acquired properties previously subject to state and local taxation. Revenue from power sold to federal agencies is excluded from taxation. The formula used to determine each state's share is: one-half of the annual payment is divided proportionately among the states according to the value of the TVA's power property within each state, and the remaining half is divided proportionately on the basis of the TVA's power revenues from each state to the TVA's total power revenues.

Collections:

The Department of Revenue annually receives equal monthly installment payments from the TVA and a year-end adjustment payment added to the last installment.

Distribution:

The total TVA payment is shared by the State of Alabama and the counties served by the TVA. The amount of the TVA payment retained by the State of Alabama is credited to the State General Fund and/or to the Incentives Financing Authority Debt Service Fund. The payment is distributed as follows: to the counties

served by TVA, 83%; to the Incentives Financing Authority the amount necessary to pay the debt service on its bonds; and the remainder to the State General Fund. The county share is allocated based on each served county's respective share of: total TVA residential and industrial power sales for all counties and total book value of TVA property for all served counties. Legislative History:

Public Law 48, Statute 68, Section 13

Initial federal legislation which established the Tennessee Valley Authority in 1933 and authorized payments to the states served by TVA.

Acts 1978, 2nd Ex. Sess., No. 92, p. 1786

Provided for the sharing of the TVA payments between the State of Alabama and certain counties, including dry non-TVA counties; and amended Section 28-3-74, *Code of Alabama 1975*, as amended, to eliminate the distribution of alcoholic beverage revenues to dry counties.

Acts 1979, No. 306, p. 458

Amended Acts 1978, 2nd Ex. Sess., No. 92, to tie distribution of 5% of total state TVA money going to each dry non-TVA county and to municipalities within those counties to their respective shares of total

ABC distribution to dry non-TVA counties and municipalities within those counties in FY 1979, rather than to a proportionate share of ABC total distribution to all dry counties that same fiscal year; and provided that dry counties would not receive less revenue from TVA receipts than they would have received from ABC distributions in the previous fiscal year.

Acts 1979, No. 786, p. 1425

Added definitions of terms and clarified the manner and procedures for distributing portions of the TVA payments and the procedures by which portions of the payments received by dry counties not served by the TVA would be shared with the cities within such counties.

Acts 1987, No. 586, p. 957

Provided that all of the TVA in-lieu-of-taxes revenue retained by the State of Alabama (following the distribution of the counties' portion of TVA payments) be deposited to the credit of the Tennessee Valley Exhibit Commission Trust Fund, until the balance in the Fund equals the amount of debt service on any bonds issued by the Tennessee Valley Exhibit Commission for the next succeeding fiscal year. All other TVA in-lieu-of-taxes revenue retained by the state would be credited to the State General Fund.

Acts 1990, No. 531, p. 823

Amended Sections 41-9-782 and 41-9-783, *Code of Alabama 1975*, as amended, relating to the Tennessee Valley Exhibit Commission to authorize the Commission to issue and sell revenue bonds in a principal amount not to exceed \$1.5 million in order to pay certain costs of completing an information and exhibit center; and appropriated and pledged such amounts as may be necessary to pay principal and interest on the bond issue from monies retained by the state from in-lieu-of-tax payments made by the Tennessee Valley Authority. Required the Commission to, at the end of each fiscal year, transfer any surplus funds in its account to the Tennessee Valley Exhibit Commission Trust Fund for reimbursement of monies previously withdrawn with interest. After repayment to the trust fund, any surplus monies remaining are to be transferred to the State General Fund.

Acts 1995, No. 372, p. 746 and No. 373, p. 747

Pledged and appropriated the portion of the TVA payments remaining after distribution of the county shares and the payment of the debt service on bonds issued by the Tennessee Valley Exhibit Commission to pay the debt service on bonds issued by the Incentives Financing Authority. Act 1995-373 created the Alabama Incentives Financing Authority and authorized it to issue bonds to finance industrial projects in the state.

Acts 2006, No. 655, p. 1792

Increased the annual amount of TVA payments distributed to served counties from 75% to 78% beginning in FY 2006. Required additional amounts received by the counties from the 3% to be allocated by local legislation. The additional 3% comes from amounts previously retained by the state.

Acts 2007, No. 417, p. 869

Provided that any county in which a community development district is located would participate in the distribution of the state beer tax. A dry county that receives alcoholic beverage taxes or fees because of this act would have its share of TVA payments reduced by the amount equal to the alcoholic beverage taxes or fees received by such county.

Acts 2010, No. 135, p. 190

Limited the amount of revenue distributed from the state liquor taxes to the State General Fund, the Public Welfare Trust Fund, and the Special Mental Health Fund at the amount received for fiscal year 2009 until the annual growth in liquor tax receipts above the fiscal year 2009 amount equals the amount of Tennessee Valley Authority (TVA) in-lieu-of-taxes payments distributed in FY 2009 to the dry counties not served by the TVA. Beginning with the fiscal year ending September 30, 2010, distributed to the dry counties not served by the TVA from the growth in state liquor taxes up to the amount of TVA payments distributed to dry counties for fiscal year 2009 plus an amount equal to the percentage growth in TVA payments received by the state; and reduced the amount of TVA payments distributed to the dry counties not served by TVA by an amount equal to the amounts allocated to those counties from the state liquor taxes and distributed to the counties served by the TVA.

Comparison with Neighboring States:

Florida

No payment is received from TVA.

Georgia

The total payment received from TVA is redistributed to counties, county school districts and municipalities according to the relative book value of TVA property therein. The TVA payment distributed to Georgia in fiscal year 2014 was \$8.9 million.

Mississippi

The first 12.5% is retained by Tishomingo County, the next 10% is retained by the state, and the remainder is distributed to the TVA served counties and municipalities, based on a ratio of power sales (of this amount, 25% is distributed to school districts within TVA served counties, based on a

teacher to pupil ratio). The TVA payment distributed to Mississippi in fiscal year 2014 was \$38 million.

Tennessee

The state retains \$55.2 million; \$4.1 million is distributed to the counties and municipalities; and any payments received in excess of this amount are split 48.5% to the state and 51.5% to the counties and cities. The TVA payment distributed to Tennessee in fiscal year 2014 was \$334.9 million.

Statutory Authority:

Sections 40-25-1 through 40-25-29 and 40-25-40 through 40-25-47, *Code of Alabama 1975*, as amended.

Georgia

Cigars, other than little cigars, are taxed at 2.5 mills each. Other cigars are taxed at 23% of wholesale cost price. The rate for loose or smokeless tobacco is 10% of the wholesale price. Licensed distributors may be allowed discounts ranging from not less than 2% nor more than 8% of the face value thereof, depending on the volume of cigars handled.

Tennessee

Manufactured tobacco, snuff, and all other tobacco products including cigars, cheroots, and stogies are taxed at 6.6% of the wholesale cost price. Dealers or distributors of tobacco products, other than cigarettes, are allowed 2% of the tax as compensation for remitting the tax, risk of loss, and miscellaneous expenses.

Unemployment Compensation Tax

Statutory Authority:

Sections 25-4-40.1, 25-4-52, 25-4-54, and 25-4-72, *Code of Alabama 1975*, as amended.

Tax Base:

The first \$8,000 paid to an individual employee during a calendar year.

Tax Rate:

The contribution rates (expressed as a percentage of taxable wages) are determined under an experience rating plan, with rates ranging from .20% to 6.8% prior to reductions, depending upon: (1) the balance of the Unemployment Compensation Trust Fund at the end of any fiscal year; and (2) the desired level of the Fund. An employer must pay unemployment compensation tax at the rate of 2.70% until such time as it becomes eligible for experience rating (tax rate year beginning January 1 following the first fiscal year ending September 30 throughout which its account has been chargeable for benefits based on its wages). The length of time required for experience rating varies from seven to ten calendar quarters, depending upon the quarter in which wages were first paid. A special assessment of 0.06% of taxable wages was permanently extended in the 2013 Regular Session (see Acts 2013, No. 208) and is deposited into the Employment Security Administration Enhancement Fund.

Acts 1992, No. 623, p. 1466

Further defined telephone services which are (and are not) subject to the Utilities Gross Receipts Tax and the Utility Service Use Tax. Repealed the 2.5% Telephone Gross Receipts Tax and the 2.5%

Telegraph Gross Receipts Tax; increased the Utility Gross Receipts Tax and the Utility Service Use Tax from 4% to 6.7% on sales to a person up to \$40,000 per month, from 3% to 3.7% on the next \$20,000 of sales per month, and from 2% to 3.7% on sales over \$60,000 per month; and changed distribution of Utility Gross Receipts Tax from Education Trust Fund to current distribution.

Acts 1996, No. 206, p. 236

Authorized the Alabama Department of Economic and Community Affairs to enter into contracts until June 30, 1996 with eligible enterprise zone businesses to provide exemptions from the Utility Gross Receipts Tax and the Utility Service Use Tax for a period of up to 20 years. To qualify, a business must employ at least 1,200 people and make capital investments and capital improvements of at least \$75 million within the enterprise zone.

Acts 1997, No. 867, p. 208

Excluded prepaid telephone calling cards from the Utility Gross Receipts Tax, the Utility Service Use Tax, and the Cellular Radio Telecommunication Services Tax (and included them in the Sales and Use Taxes).

Acts 1998, No. 654, p. 1431

Exempted from the definition of "Telephone Services," for purposes of the Utility Gross Receipts Tax, access to the Internet; and exempted from the definition of "Telephone Services," for purposes of the Utility Service Use Tax, the Internet and access thereto.

Acts 2001, 4th Ex. Sess., No. 1090, p. 1120

Amended the Utility Gross Receipts Tax and the Utility Service Use Tax, as applied to telephone services, to include interstate telephone service beginning with bills dated on or after February 1, 2002, regardless of when the services being billed were provided; changed the tax rate, beginning April 1, 2002, (1) from 6.7% to 6% if gross sales or receipts (privilege tax) or sales price (use tax) respecting a person are not over \$60,000; and (2) from \$4,020 plus 3.7% of excess over \$60,000 to 6% if the gross sales or receipts or sales price is over \$60,000; and provided that utilities furnishing telegraph or telephone services may deduct and retain from the gross amount of tax billed by the utility .9% of the tax billed on or after February 1, 2002 and .25% beginning October 1, 2002.

Acts 2004, No. 397, p. 668

Amended the Utility Gross Receipts Tax and the Utility Service Use Tax to provide that if charges for nontaxable services are "bundled" with charges for taxable items, then the nontaxable charges are subject to the tax. If the utility can reasonably identify nontaxable charges from records kept in the normal course of business then the charge is not subject to taxation. Stated that a customer does not

have a right to require the utility or the Department of Revenue to separate bundled charges in order to minimize the amount of tax charged to the customer.

Acts 2006, No. 292, p. 584

Provides incentives to certain businesses for projects that create any number of new employees for a qualifying project whose predominant activity involves chemical manufacturing, data centers, engineering, design or research; or at least 50 new employees, for all other projects. Allows an incentivized company to claim an investment credit against income taxes, financial institution excise taxes, insurance premium taxes, utility taxes, or some combination of these taxes in an annual amount of 1.5% of the capital investment for 10 years, based on the terms and conditions of the project agreement entered into between an approved company and the Governor. Authorizes the Governor to decrease the amounts and duration of the incentives to ensure the anticipated revenues to the state will exceed the amount of incentives sought. Provides that the incentive period does not begin for either credit until after the project is placed into service.

Acts 2015, No. 41

Enacts the Alabama Veterans and Targeted Counties Act. Provides enhanced incentives under the provisions of the Alabama Jobs Act (Act 2015-27) to companies located in a targeted county and to companies that employ veterans. Authorizes the investment credit incentive period to be 15 years for a qualifying project in a targeted county if the project sells the majority of its output to businesses located nearby, as opposed to a 10-year incentive period for projects in other counties under the provisions of the Alabama Jobs Act; and allows the credit against income taxes, financial institution excise taxes, insurance minimum taxes, utility taxes, or some combinations of these. Florida

Annual gross receipts tax of 2.5% for any utility service providing electricity or gas used for light, heat, or power, and 2.37% on residential and commercial landline and on mobile telecommunications services. Interstate and international telecommunications services are subject to the gross receipts tax if the charge therefor is billed to a Florida customer, number, or telecommunications device. A state sales tax of 7% is applied to customers' charges for electric power or energy (governmental entities are exempt). A state communications services tax of 5.07% is also applied to customers' charges for mobile telecommunications services, cable, faxes, and commercial landline telecommunications services. When combined with the 2.37% gross receipts tax, the total tax is 7.44%. The total tax on satellite services when combined with the 2.37% gross receipts tax is 11.44%. Local jurisdictions impose their taxes at various rates. When bundled services include both taxable and nontaxable services, the entire package is taxable unless the company can identify the exempt services. (For regulatory assessment fees levied on utilities see PSC Transportation Company Fees and Utility Company Fees.)

Georgia

No utilities tax based on gross receipts. Public Service Corporations and utilities subject to Public Service Commission pay an annual administrative expense assessment fee based on gross revenues so as to produce revenue of \$1.05 million per year. A state sales tax of 4% is applied to customers' charges for natural or artificial gas, electricity, oil, and local telephone service.

Mississippi

No gross receipts tax is levied. A privilege tax is levied instead as follows: (1) Electric light and power companies pay \$22.50 per mile of pole line operated and maintained in the state; (2) pipe line companies pay \$15 to \$125 per pipe line mile, according to the diameter of the pipe; (3) telephone companies pay \$.04 per telephone in service or \$25, whichever is greater; and (4) railroad companies pay \$5 to \$90 per mile of railroad according to class and mileage. A regulatory tax to pay for the expenses of the Public Utilities Commission is imposed on all utilities whose rates are subject to regulation and on all utilities not subject to such rate regulation that furnish electricity to the ultimate consumer. A state sales tax of 7% is applied to customers'

charges for interstate and intrastate telephone services and residential noncommercial charges for electricity, water, and natural gas (governmental entities are exempt).

Tennessee

A gross receipts tax on gas, water, electric power, and light companies and other public utilities at a rate generally of 3% of intrastate gross receipts (except gas companies that manufacture or distribute manufactured gas pay 1.5%). All governmental agencies and gas, water, and power plants owned or operated by cities are also exempt.

Public Utilities License Tax

Statutory Authority:

Sections 40-21-50, 40-21-51, 40-21-53 through 40-21-55 and 40-21-62 through 40-21-64, *Code of Alabama 1975*, as amended.

Tax Base:

License tax imposed for operating a public utility (hydroelectric, electric, gas, other public utility, or privately owned and operated wastewater facility) except railroads or sleeping car companies, express companies, telephone, and telegraph companies. (See Note following Distribution).

Tax Rate:

2.2% on each dollar of gross receipts for the preceding year. (See Note following Distribution).

Collections:

By the Department of Revenue (Sales and Use Tax Division), quarterly on October 1, January 1, April 1 and July 1. (See Note following Distribution.)

2014	146,437,220	1.03
2013	144,931,326	(3.31)
2012	149,887,823	(0.02)

Distribution:

After deducting the cost of collection: 15% is deposited to the State General Fund and 85% is deposited to the Special Mental Health Fund.

Note:

This tax is paid by utility companies in four equal increments. The companies, in turn, add 2.2% to their customers' bills for as long during the year as necessary to collect from their customers the amount paid by the utility companies. The tax is paid on total gross receipts, including the minimum monthly (base) charge. The overall base of this tax is larger than that of the 4% Utility Gross Receipts tax for utilities subject to both taxes because the base of this tax includes receipts to utility companies from federal

entities. Utility companies vary as to how (and whether) they show this tax on customers' bills: it may be identified separately and totally (a separate 2.2% charge); it may be partially separately identified (typically when this is the case, the 1.8% will be separately identified and the 0.4% will not, although the full 2.2% is charged); it may be separately identified in two parts (1.8% and 0.4%); or it may be combined with the 4% Utility Gross Receipts Tax (appearing as a 6.2% total charge). Although this is a tax on the utility company, the company treats it as a cost of doing business which it passes directly on to the customer. The October 1 payment is the first payment of each year, based on the twelve months preceding the closing of the company's books, which is usually in September for most utility companies.

Major Exemptions:

- (1) Gross receipts from the sale of electricity for resale and from the sale of electricity to disabled persons and persons who are 62 years of age or older and who meet certain criteria are exempt.
