**To the Citizens, Governor, and Members  
of the Legislature of the State of California:**

I am pleased to submit the 25th edition of the *Community Redevelopment Agencies Annual Report* for the fiscal year ended June 30, 2009, which was compiled from standardized reports submitted by community redevelopment agency officials.

Community redevelopment funds are used to assist local governments in eliminating blight through development, reconstruction, and rehabilitation of residential, commercial, industrial, and retail districts. Because these projects are funded by tax dollars, it is vital that state and local legislative bodies, persons responsible for community planning and management, and concerned citizens be informed about the nature and extent of such projects.

Redevelopment agencies are required to pass through a portion of their tax increments to the local taxing agencies within their project areas.

Following are highlights of the financial activities of California's redevelopment agencies for the fiscal year ended June 30, 2009.

- Total revenues decreased from \$10.2 billion in the 2007-08 fiscal year to \$8.3 billion in the 2008-09 fiscal year. Taxes and assessments, the largest revenue source, increased from \$5.4 billion to \$5.7 billion, a 5.8 percent increase.
- Total expenditures decreased from \$8.3 billion in the 2007-08 fiscal year to \$8.1 billion in the 2008-09 fiscal year. Project improvement and construction costs were the largest expenditures, remaining at the same level as the prior year total of \$1.4 billion.
- Total outstanding long-term debt increased from \$28.8 billion in the 2007-08 fiscal year to \$29.4 billion in the 2008-09 fiscal year. Tax allocation bonds accounted for the largest portion of debt, increasing from \$18.8 billion to \$19.1 billion, a 1.6 percent increase.

I extend my appreciation to my staff and the many local government representatives who worked on this publication—it would not have been possible without their contributions.

Sincerely,

*Original signed by:*

# Introduction

The Community Redevelopment Law, Chapter 710, Statutes of 1951, was enacted by the California State Legislature with the objective of redeveloping those areas in many communities that, for a variety of reasons, suffer from unsafe, unfit, deteriorated, and economically dislocated buildings and properties. The California Constitution, Article XVI, section 16, and the Health and Safety Code, beginning with section 33000, provide funding from local property taxes to promote the redevelopment of blighted areas. Voters approved Article XVI in 1952; therefore, the revenues it generates are not subject to the limitations imposed by Article XIII B, the Gann Limit.

Government Code section 12463.3, as added by Senate Bill 1387, Chapter 1523, Statutes of 1984, requires the California State Controller to compile and publish a report of the financial transactions of community redevelopment agencies. All agencies created pursuant to Division 24 (commencing with section 33000) of the Health and Safety Code must file a report. Senate Bill 1387 also requires the California Department of Housing and Community Development to publish housing data regarding the Low and Moderate Income Housing Fund. For information regarding these housing statistics, please contact the California Department of Housing and Community Development, at P.O. Box 952053, Sacramento, California 94252-2053.

Tables 1, 2, and 3, pages 1-36 in this publication, provide general information regarding assessed values, tax increment revenues apportioned by each county, historical information regarding the formation of each agency and project area, and data relating to each agency's achievements in the current year. Tables 4 through 7, pages 39-619 show detailed information on revenues, expenditures, long-term debt, and assessed valuations.

This publication includes an analysis of the data, as well as other pertinent information specific to individual redevelopment agencies. Appendix B defines terminology used in this publication.

## **Financial and Compliance Audit**

Each agency is required to annually submit a financial and compliance audit to its legislative body and to the California State Controller's Office. Pursuant to Health and Safety Code section 33080.1(a), this audit is to be conducted "in accordance with generally accepted auditing standards and the rules governing audit reports promulgated by the California State Board of Accountancy. The audit report shall also include an opinion of the agency's compliance with laws, regulations, and administrative requirements governing activities of the agency."

In order to meet this requirement, the California State Controller's Office requires agencies to prepare their financial statements on a component unit basis, detailing all funds of each project area in combined statements. The

component unit statement presents the agency's activities without combining them with other unrelated city or county activities.

A total of 425 redevelopment agencies existed during the 2008-09 fiscal year. Twenty-six reported having no financial transactions. One agency failed to file their financial reports.<sup>1</sup> Figures 19 through 23 include statistical information concerning redevelopment agencies' formation, organization, and purpose.

Of the 398 agencies reporting financial transactions, 392 filed financial audits, with compliance reports, for the 2008-09 fiscal year. Six agencies failed to file their 2008-09 audit reports.<sup>2</sup>

Figure 1 highlights the most frequently cited areas of non-compliance, the related Health and Safety Code Section, and the number of violations reported. The number of reported violations is based on the agencies' compliance audit reports for the 2008-09 fiscal year. The violations reported in Figure 1 may include prior year violations that have not been corrected by the agency or other events that occurred during the 2008-09 fiscal year.

Senate Bill 497, Chapter 362, Statutes of 1999, and Senate Bill 109, Chapter 318, Statutes of 2003, require the California State Controller's Office to identify nine types of major audit violations of the Community Redevelopment Law, as reported in the independent financial audit. Figure 1 includes all nine areas considered major audit violations and the number of violations reported. Agencies that have not corrected their major audit violations on or before June 1 of each year are referred to the California Attorney General for further action.

Of the 392 compliance reports submitted to the California State Controller's Office, 62 reports indicated areas of non-compliance, noting a total of 41 major violations and 132 other compliance findings. The most frequently cited violations concerned the independent auditor's report. Every redevelopment agency is required to file an independent auditor's report to its legislative body and the California State Controller's Office within six months of the end of the agency's fiscal year. The independent auditor's report should include specific opinions on, the financial statements of the agency which present the results of the operations, financial position, all financial activities of the agency, and a report on the agency's compliance with laws, regulations, and administrative requirements governing activities of the agency in the previous fiscal year. The audit report shall be conducted by a certified public accountant or public accountant, licensed by the State of California, in accordance with Government Auditing Standards adopted by the Comptroller General of the United States.

## Financial Statements

Redevelopment accounting is based on the modified accrual basis of accounting, rather than on the full accrual basis. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein. These accounts are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The debt service fund, for example, is used to account for the payment of principal and interest owed on long-term debt.

The financial information in this publication has been gathered from redevelopment agencies based on these accounting concepts. The statement of revenues and expenditures and the balance sheet are basic financial statements that, when considered together, reveal the economic events of a period of time and the end results.

The figures that follow are based on the "10000 Redevelopment Agencies" uniform accounting system, as prescribed for redevelopment agencies by the California State Controller. The system requires a fund financial statement presentation for governmental funds.

Beginning with the 2001-02 fiscal year, the governmental financial reporting model, as established by Governmental Accounting Standards Board (GASB) Statement No. 34, phases in the preparation of government-wide

financial statements and fund financial statements. However, the purpose of this publication is to present only specific financial data for community redevelopment agencies. Therefore, the financial statements contained in this publication are not intended to conform with GASB Statement No. 34.

## Combined Balance Sheet

The combined balance sheet on page vii presents the totals of assets, liabilities, and equities of all community redevelopment agencies as of June 30, 2009, compared to June 30, 2008. In addition to the fund types, two account groups are shown as of June 30, 2009.

The General Fixed Assets Account Group is a self-balancing group of accounts set up to account for the general fixed assets of an agency, such as land, buildings, and equipment. These assets are in contrast to assets held for investment purposes.

The General Long-Term Debt Account Group is also a self-balancing group of accounts, used to account for the unmatured general long-term debt of an agency.

Many readers of financial statements are interested in the financial condition of a fund, or in the relationship between assets, liabilities, and equity. Equity represents the net of total assets minus total liabilities of a specific fund. Equity consists of investments in fixed assets and fund balance.

Fund balance is further classified into three categories.

***Reserved*** — Fund balance that is reserved for specific purposes and is not available for financing the program expenditure of the current fiscal period.

***Unreserved Designated*** — Fund balance that is segregated to indicate tentative managerial plans or intent and is clearly distinguished from reservations.

***Unreserved Undesignated*** — Fund balance that is unencumbered and available to finance the program expenditure of the fiscal period to which it applies.

Also significant is the asset account, Land Held for Resale. In order to accomplish the goal of eliminating blight, agencies may purchase parcels of land to attract development that will replace the blighted conditions. This account represents the cost or investment in land currently held for eventual resale.

## **Combined Statement of Revenues, Expenditures, and Changes in Fund Balance**

### **Revenues and Other Financing Sources**

The following figures represent the statewide totals of revenues, expenditures, and other financing sources and uses for community redevelopment agencies for the 2008-09 fiscal year. This summary of revenues and expenditures shows the results of operations during the fiscal year. The data are provided by fund type. These data may be of particular interest to those concerned with specific kinds of financial information, such as the activity in the Low and Moderate Income Housing Fund.

Revenues and other financing sources from all local, state, and federal sources amounted to \$8.3 billion for the 2008-09 fiscal year. See Figures 3 and 4 for summary information, Figure 7 for trend information, and Figures 9 and 10 for detailed information.

Local tax revenues, the largest source of funds, amounted to \$5.7 billion, or 68.6% of total revenues and other financing sources. This is an increase of 5.7% from the 2007-08 fiscal year. These funds are generated from tax increment revenues, sales tax, property assessments, and the State provided special supplemental subvention. Agencies that formerly received the business inventory tax and pledged that tax for the repayment of debt are eligible to apply for a special supplemental subvention from the State. However, beginning with the 1992-93 fiscal year, the amount allocated by the State has averaged less than one-tenth of previous allocations. For the 2008-09 fiscal year, only one agency, the Community Development Commission of the City of Huntington Park, reported receiving special supplemental subvention revenues.

Tax increment revenues amounted to \$5.7 billion, an increase of 5.8% from the 2007-08 fiscal year (see Figure 10). Property assessments in the amount of \$4.1 million were levied by eight redevelopment agencies. Fourteen cities have diverted sales tax revenue in the amount of \$18.0 million to their project areas. Redevelopment agencies may also impose a transient occupancy tax. Two redevelopment agencies did so during the 2008-09 fiscal year, reporting a total of \$9.4 million in transient occupancy tax revenues, a 6.3% increase from the prior year.

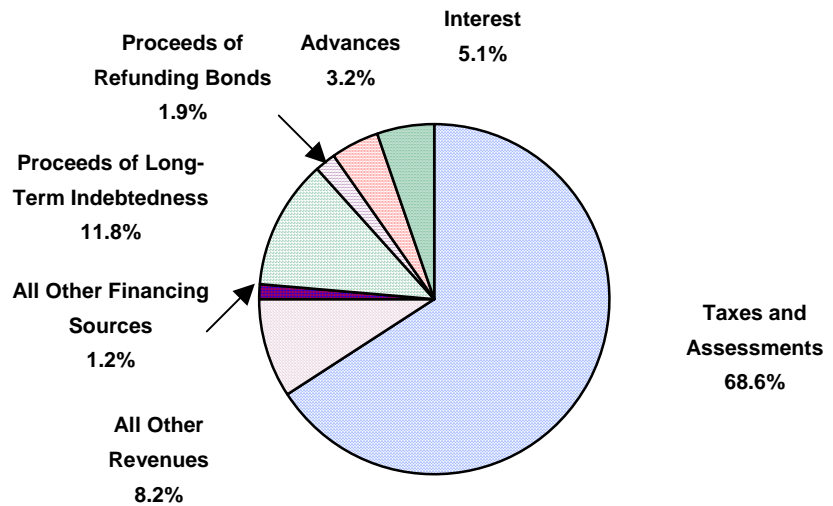

The second largest single revenue source was interest on funds held by redevelopment agencies. This revenue totaled \$422.7 million, a decrease of 34.0% from the 2007-08 fiscal year. Rental and lease income amounted to \$130.5 and \$19.7 million respectively, a combined decrease of 5.4% from the 2007-08 fiscal year. Sale of real estate amounted to \$12.8 million, a decrease of 75.3% from the 2007-08 fiscal year.

Additional financing sources include proceeds from long-term debt issuances. During the 2008-09 fiscal year, a total of \$1.4 billion was received from issuances of long-term debt; this total was comprised of \$264.4 million in advances, \$158.7 million in refunding issuances, and \$982.5 million from all other debt issuances. All other revenues, which include gain on land \$3.5

million, sale of fixed assets \$97.0 million, grant revenues \$155.5 million, and other revenues \$359.0, amounted to \$615.0 million.

The financial data presented in Table 4, beginning page 39 of this publication show the aggregate of all funds for each project area by redevelopment agency.

Expenditures and other financing uses for all agencies for the 2008-09 fiscal year amounted to \$8.1 billion. See Figures 5 and 6 for summary information,

Figure 8 for trend information, and Figures 9 and 10 for detailed information. Project improvement and construction costs were the largest expenditure, amounting to \$1.4 billion (18.0%). Interest expense and long-term debt principal payments amounted to \$1.4 billion (17.5%) and \$1.1 billion (13.3%), respectively. Payments to refunding bond escrow agent amounted to \$119.7 million (1.5%). All other expenditures and financing uses amounted to \$4.0 billion for the 2008-09 fiscal year.

## Five-Year Trends

Figure 7 presents the five-year trend in revenue and other financing sources. The proceeds of indebtedness consist of proceeds of long-term debt, proceeds of refunding bonds, and city/county advances. Figure 8 presents the five-year trend in expenditures and other financing uses. The excess of revenues and other financing sources over expenditures and other financing uses was \$261.8 million, compared with \$1.9 billion in the prior year.

# Long-Term Debt

Figure 11 presents the changes in long-term debt of community redevelopment agencies for the 2008-09 fiscal year, and summarizes the beginning unmatured debt, adjustments, debt issued, debt matured, debt defeased, and ending unmatured debt by the type of debt issued. Agencies frequently borrow funds from their respective city or county. The repayment of these loans may be subordinate to the repayment of bonds or other types of debt, and occasionally no money is available for repayment of interest or principal. Accrued interest that is due but not paid is added to long-term debt by adjusting the principal amount outstanding. A total of \$124.3 million in unpaid interest was added to long-term debt in the 2008-09 fiscal year. Table 5, beginning page 245 presents the details of agency long-term debt. Figure 13 presents a five-year comparison by type of debt issued.

Figure 12 reconciles the long-term debt as reported in the Combined Balance Sheet (Figure 2) to the amounts reported in Figure 11. A few agencies have established enterprise funds to account for specific programs or activities. The long-term debt of an enterprise fund is presented within that fund. These amounts are included in the All Other Funds column of the Combined Balance Sheet and must be combined with the total amount of the General Long-Term Debt Account Group in order to identify total redevelopment agency long-term debt.

During the 2008-09 fiscal year, \$135.1 million of tax allocation bonds, revenue bonds, and other debt was retired by agencies with the issuance of \$158.7 million refunding bonds. The purpose of the early extinguishment of debt is generally to take advantage of lower interest rates, extend the number of years over which the debt matures, or increase borrowing capacity.

## Non-Agency Long-Term Debt

Figure 14 presents the changes in long-term debt that was originally issued by the agency but is generally not considered a debt of the agency. Examples of this type of debt include mortgage revenue bonds, industrial development bonds, and certain certificates of participation. Some agencies had difficulty providing this information, and a few were unable to provide the detail that the California State Controller's Office requires because the obligations are usually administered by a trustee and are not generally accounted for by the agency itself. The detail of non-agency long-term debt appears in Table 6, beginning page 401.

# Assessed Valuation and Tax Increment Distribution

Section 33670 of the Health and Safety Code authorizes the allocation of property taxes among the various local agencies and community redevelopment agencies. The “frozen base assessed valuation” is the value of property at the time of the adoption of a redevelopment project plan. The “incremental assessed valuation” is the cumulative increase in the value of property within a project area above the frozen base assessed valuation. Tax increment revenues are produced by applying general and debt service tax rates to the incremental assessed valuation. Figure 15 presents total assessed values for the 2007-08 and 2008-09 fiscal years.

**Figure 15**

<b>Total Assessed Valuation.....</b>	<b><u>\$ 716,189,901</u></b>	<b><u>\$ 674,963,153</u></b>

Not all of the tax increment is available to a redevelopment agency. Pursuant to Assembly Bill 1290, Chapter 942, Statutes of 1993, a project area formed or amended after January 1, 1994, is required to pay a portion of its tax increment, on a graduated basis, to the local taxing agencies within its area. All payments are calculated against the net tax increment after the agency has set aside the 20% obligation to the Low and Moderate Income Housing Fund.

For the first 10 years after the date each project was established, this “pass-through” payment is based on 25% of the net tax increment. This payment continues for the life of the project area. Beginning in the 11<sup>th</sup> fiscal year and continuing for the remaining life of the project area, an additional 21% of the net tax increment is passed through, based on the incremental growth over assessed value in the 10th fiscal year. Beginning in the 31st year and continuing for the remaining life of the project area, an additional 14% of the net tax increment is passed through, based on the incremental growth over assessed value in the 30th fiscal year.

For project areas formed prior to January 1, 1994, Health and Safety Code section 33676 allows cities, counties, and special districts — and requires school districts and community college districts — to elect whether or not to receive that portion of the tax increment generated by the annual increase in assessed valuation due to inflation. In lieu of this provision, local taxing agencies can opt to receive tax increment pass-through payments based upon a negotiated agreement with the redevelopment agency. The local taxing agency is required to demonstrate to the redevelopment agency that these payments were necessary to alleviate a financial burden created by redevelopment activities. The pass-through payments in place pursuant to

these agreements are grandfathered and remain in effect throughout the life of the project area.

Figure 16 summarizes the distribution of tax increment revenues between the redevelopment agencies and other taxing entities for the 2008-09 fiscal year and presents summary information for the 2007-08 fiscal year. Data are presented as reported by the redevelopment agencies.

<sup>1</sup> Some agencies do not include amounts paid to other local taxing agencies, pursuant to Health and Safety Code section 33676, as tax increment revenues on their Statement of Revenues and Expenditures. Therefore, the amount listed above does not equal the amount of "tax increment" revenues in Figures 9 and 10.

## Statement of Indebtedness

Tax increment revenues retained by redevelopment agencies, net of pass-through payments to other local taxing agencies and the required set-aside to the Low and Moderate Income Housing Fund, may be expended only for the purpose of repaying principal and interest on any type of loan, advance, or indebtedness listed on the Statement of Indebtedness. In order to receive these revenues, an agency must file a Statement of Indebtedness with its County Auditor. If the County Auditor does not dispute the amount of indebtedness as filed, the agency must be paid the portion of taxes generated from the incremental assessed valuation in an amount not to exceed the total debt listed on the Statement of Indebtedness, less available revenues. The

amounts shown include principal and interest remaining to be paid over the term of the indebtedness.

The meaning of “indebtedness,” for the purpose of the Statement of Indebtedness, is not limited to the formal accounting definition of indebtedness but is expanded to include all redevelopment obligations, whether pursuant to an executory contract or a performed contract, or to repay principal and interest on bonds or loans. Obligations to the Low and Moderate Income Housing Fund are defined in the Health and Safety Code as “indebtedness” for the purpose of the Statement of Indebtedness.

The Statement of Indebtedness is perhaps the least understood aspect of redevelopment finance. It itemizes all future tax increment requirements for the purpose of repaying indebtedness. In preparing the Statement of Indebtedness, an agency must take into consideration all obligations, contracts to perform, and legal agreements such as pass-through payments to other local taxing agencies. The exact amounts of pass-through payments are not always known until the year in which they must be paid. For example, pass-through payments may or may not be directly related to the amount of tax increment received. Estimates must be made annually to determine what future obligations would be required for pass-through payments for the life of the project area.

Redevelopment agencies must also prepare a reconciliation statement that shows all changes from the prior year’s Statement of Indebtedness to the current year. All new indebtedness, payments, adjustments, and modified estimates are itemized and explained in the reconciliation statement.

In addition, an agency may have revenues or resources that are committed to the repayment of indebtedness. This amount, called available revenues, is also calculated annually. This calculated amount is deducted from the total indebtedness to determine the net amount needed for an agency to meet all of its future indebtedness obligations.

The California State Controller’s Office noted, in preparing the data for this publication, that some Statements of Indebtedness are prepared in ways that indicate that some redevelopment agencies fail to realize the importance of the document. All future demands for tax increment revenues should be itemized in the document, yet some agencies omit their required funding of the Low and Moderate Income Housing Fund, future administrative cost requirements, and other costs that would be funded from future tax increment revenues. Assembly Bill 1290, Chapter 942, Statutes of 1993, added requirements that redevelopment agencies adopt certain time limits regarding the establishment of new indebtedness, the effectiveness of the redevelopment plan, and the final date for the repayment, from tax increment revenues, of all indebtedness. These requirements make it essential that an agency include the above-mentioned indebtedness in order to receive sufficient tax increment revenues to meet all of its obligations within those time limits.

For example, for the 2008-09 fiscal year, 69 agencies reported indebtedness that did not include the required funding of the Low and Moderate Income Housing Fund. These agencies reported a total of \$4.2 billion in indebtedness. Since redevelopment agencies are required to set aside 20% of all tax increment revenues for deposit in the Low and Moderate Income Housing Fund, these agencies will not be able to repay their indebtedness and satisfy the 20% set-aside requirement to the Low and Moderate Income Housing Fund if they receive only \$4.2 billion in tax increment revenues. To meet all obligations, these agencies should increase amounts reported on their Statement of Indebtedness by 25%; An additional \$1.1 billion. The resulting total indebtedness of \$5.3 billion will provide these agencies with sufficient tax increment revenues to satisfy all obligations, including the 20% set-aside requirement (20% of \$5.3 billion = \$1.1 billion).

Figure 18 shows the amounts reported on the Statement of Indebtedness in a summarized form, combining the major types of indebtedness. Detailed information is presented in Table 7, beginning page 415 of this publication.

## Changes and Trends

Over the years, legislation has amended the meaning of “redevelopment” in order to meet California’s diverse needs. In addition to rehabilitating blighted areas by making property available for new development, various legislative proposals have asked redevelopment agencies to provide shelter for the homeless, establish daycare for children, deal with hazardous wastes, fund fire protection, ensure notification of industrial plant and base closures, and fund pension liabilities. Although not all of these requests have become law, the Legislature has permitted redevelopment agencies to engage in various activities. Redevelopment activities have included providing flood control measures, financing housing for low-income families, assisting in the construction of sports arenas, and operating amusement parks.

The California State Controller’s Office has collected financial transaction reports from community redevelopment agencies since the 1967-68 fiscal year. In the fiscal years preceding 1984-85, the reports were compiled annually in the *Special Districts Annual Report*. These earlier reports contained significantly less detail than current reports. Agencies that did not receive tax increment revenues were not required to file a report and thus

were not included in the special districts publication. Figure 19 outlines the increase in the number of established agencies over the last 69 years. For the 2008-09 fiscal year, 26 agencies, or 6.1%, reported having no financial transactions. In the 2007-08 fiscal year, 27 agencies, or 6.4%, reported having no financial transactions.

<sup>1</sup> Due to new formations, amendments, or merging of project areas each year, the total count of project areas varies from year to year. This count is based upon project areas existing and reported during the 2008-09 fiscal year. Only the remaining merged area is counted in the case of mergers, and project areas that may have completed their purpose are dropped from the counts.

Counties have raised concerns regarding the impact that city community redevelopment agencies have on county revenues. In recent years, however, counties have established their own redevelopment agencies. Thirty-one counties have redevelopment agencies, with 26 reporting financial transactions in the 2008-09 fiscal year. Five agencies have been formed as a result of joint exercise of power agreements between communities. Each of these joint powers entities is currently active. Of these, three were formed as a result of military base closures in order to assist the local communities in economic recovery and base reuse programs. Figure 20 shows the number of active and inactive agencies and project areas by the forming entity.

Figure 21 shows the number of cities that have an active redevelopment agency, an inactive agency, or no agency. Of the 480 cities existing in the 2008-09 fiscal year, 80.8% had at least authorized one agency. Of the 173

cities with a population of 50,001 or more people, 93.6% had active agencies. Of the 21 inactive city agencies, 86.4% were in cities with a population of fewer than 50,001 people.

The relative physical size of project areas, as well as their increasing numbers, may have an impact on other taxing agencies and the allocation of property taxes. The reported project areas vary in size from approximately two acres to more than 46,000 acres. Figure 22 summarizes the number of project areas by size.

Each agency was asked to indicate the various objectives of each of its project areas. The objective most often cited was commercial development. Many agencies cited multiple objectives for project areas. Figure 23 shows the most frequently cited objectives engaged in the project areas.

# Redevelopment Agency Accomplishments

Table 3, beginning page 29 in this publication reports information regarding accomplishments or achievements of redevelopment agencies during the 2008-09 fiscal year. In order to provide information about the accomplishments that are a direct result of redevelopment activities, data have been collected regarding estimates of jobs created and the amount of square footage completed on new and rehabilitated building projects. However, the data are limited to the most current fiscal year, while projects almost always extend over several years. To avoid overlap of information, agencies are required to provide data only for those projects or accomplishments completed during the report year. In addition to the achievements outlined below, many public infrastructure facilities, such as streets, utilities, sewers, and landscaping projects, were improved or constructed. An estimated 23,560 jobs were created in the 2007-08 fiscal year, and 14,723 jobs were created in the 2008-09 fiscal year. Appendix A, beginning page 623 provides additional information on the accomplishments of specific project areas, and also includes compliance audit findings for all agencies reporting areas of non-compliance.

The data reported in Table 3 are presented as reported to the California State Controller’s Office and have not been reviewed or verified as to accuracy or reliability. Figure 24 summarizes this information for the past ten years.

## Assistance to School Districts and Community College Districts

Educational assistance includes financial assistance as well as capital outlay assistance. This comes in various forms, including pass-through agreements and the sharing of the tax increment produced by the 2% growth on the base assessed valuation. In addition, the Health and Safety Code allows an agency to assist school districts with capital outlay by financing actual construction by purchasing or financing facilities, or, when the activities of the agency cause overcrowding of schools, by providing financing assistance to alleviate the overcrowding. Figure 25 shows the State totals for these forms of assistance.

## Appendix B — Definitions and Terminology

**Article XVI, Section 16, of the California Constitution** — The constitutional authority for the utilization of tax increment financing by redevelopment agencies.

**Available Revenues** — As used in the statement of indebtedness, available revenues are defined as cash or cash equivalents held by the agency as received from tax increment revenues, or cash or cash equivalents held by an agency that are irrevocably pledged or restricted to payment of a loan, advance, or indebtedness that the agency has listed on a statement of indebtedness. In no case may available revenues include funds held in the Low and Moderate Income Housing Fund.

**Base Assessed Valuation** — The assessment roll last equalized prior to the effective date of an ordinance approving a redevelopment project area plan. Also referred to as the “frozen base.”

**Base Year** — The fiscal year in which the project area plan is approved.

**Blight** — Physical, social, or economic liabilities in a community that require redevelopment in the interests of the health, safety, and general welfare of the residents.

**Business Inventory Tax** — The property tax assessed on the value of business inventory.

**Capital Projects Fund** — A fund created to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds, special assessment funds, or trust funds).

**Debt Service Fund** — A fund established to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

**Increment Assessed Valuation** — The assessed valuation of the taxable property in a project area in excess of the base assessed valuation.

**Low and Moderate Income Housing Fund** — A special fund created pursuant to Health and Safety Code section 33334.3 to account for the 20% set-aside of Tax Increment Funds for low- and moderate-income housing.

**Non-Agency Debt** — Debt payable from a restricted revenue source for which the issuing agency has no liability. Examples include residential mortgage revenue bonds and industrial development bonds.

**Pass-Through Agreement** — An agreement made within specific guidelines whereby a redevelopment agency may share a portion of its tax increment revenue with any taxing agency with territory located within a project area

(except for the community that has adopted the project). The taxing agency must show that the redevelopment project activities have caused a financial burden or detriment that can be alleviated by such an agreement. Agencies may also "pass through" tax increment revenues that are attributable to either an increase in the tax rate and/or increases in the assessed value due to the application of Revenue and Taxation Code section 110.1 (2% annual increase).

**Project Area** — A predominantly blighted area of an urbanized community.

**Property Assessments** — Assessments made against properties on a non-ad valorem basis. Assessment basis can be per parcel, acre, or other per unit basis.

**Statement of Indebtedness** — A statement filed with the County Auditor on or before October 1 of each year detailing the indebtedness of each project area.

**Tax Increment** — The portion of the taxes levied that is produced by increment assessed valuation.

**Transient Occupancy Tax** — A tax levied and collected by the redevelopment agency for the privilege of occupying quarters on a transient basis (e.g., hotel room)
