

## Budget Bill Changes to the Elderly/Disabled Circuit Breaker Program

By: Julia Singer Bansal, Associate Analyst  
November 3, 2017 | 2017-R-0268

### Issue

Summarize changes made by the budget bill to the [Elderly/Disabled Circuit Breaker Program](#). Provide the amounts that the state reimbursed each municipality in FY 17.

### Summary

Under the Elderly/Disabled Circuit Breaker Program, municipalities reduce property taxes owed by certain elderly or totally disabled homeowners and may be reimbursed for lost revenue by the Office of Policy and Management (OPM) ([CGS § 12-170aa et seq.](#); [Conn. Agencies Regs. § 12-170aa-1 et seq.](#)). The 2017 budget bill ([HB 1502](#) § 206), with specified exceptions, allows the OPM secretary to reduce reimbursements to municipalities by up to 100%. This provision went into effect on October 31, 2017. As under existing law, municipalities must continue to provide tax reductions to eligible homeowners, regardless of reimbursement levels.

The budget bill prohibits OPM from reducing reimbursements to a municipality that is (1) a distressed municipality, (2) a targeted investment community (i.e., contains an enterprise zone), or (3) part of an airport development zone. However, it is unclear whether these municipalities will receive reimbursements because:

1. the legislature did not appropriate any money for the Circuit Breaker Program in FYs 18 and 19 and
2. existing law, unchanged by the budget bill, requires OPM to proportionately reduce grants to municipalities if appropriations are insufficient to fully reimburse municipalities.

(According to the Office of Fiscal Analysis (OFA), OPM made payments to municipalities for the assessment year commencing October 1, 2015 (FY 17) by December 31, 2016. Municipalities have already applied to OPM for reimbursement for FY 18 tax reductions, but it appears that OPM does not have funds with which it can reimburse them.)

Table 1, below, lists FY 17 payments made to each municipality under the Circuit Breaker Program.

## Background on Elderly/Disabled Circuit Breaker Program

The program entitles income-eligible elderly or totally disabled homeowners to a property tax reduction. An applicant must (1) be 65 years of age or older, have a spouse who is age 65 or older, or be at least age 50 and a surviving spouse of someone who at the time of death was eligible for the program; (2) occupy the property as his or her home; and (3) have lived in Connecticut at least one year before applying. Municipalities accept applications between February 1 and May 15 for tax reductions in the following fiscal year (e.g., an application made in April 2017 would impact the applicant's FY 18 taxes). Once enrolled in the program, individuals must reapply biennially. Municipalities apply to OPM for reimbursement annually by July 1.

The property tax reduction is based on a graduated income scale. Married homeowners are eligible for a property tax reduction of between \$150 and \$1,250; unmarried homeowners are eligible for a reduction of \$150 to \$1,100. The maximum eligible incomes for individuals applying in 2017 were \$42,900 for married homeowners and \$35,200 for unmarried homeowners. OPM updates the income limits annually to reflect the amount of the Social Security Administration's cost-of-living adjustment.

## Table 1: FY 17 Payments to Municipalities

The below table provides approximate FY 17 payments to each municipality under the Circuit Breaker Program.

<i>Municipality</i>	<i>FY 17 (Est.)</i>	<i>Municipality</i>	<i>FY 17 (Est.)</i>
Andover	12,226	Berlin	100,594
Ansonia	114,386	Bethany	30,466
Ashford	20,238	Bethel	109,427
Avon	75,821	Bethlehem	28,855
Barkhamsted	20,742	Bloomfield	127,096
Beacon Falls	45,328	Bolton	30,113
