The Tax Aggregate Report is an annual publication of the State Board of Equalization, as required by *Tennessee Code Annotated* §4-3-5105. It contains selected property tax information for cities and counties and, in some instances, statewide totals. Please note the data for any jurisdiction is current only as of the tax billing date for the jurisdiction. Assessments may have been revised after the billing date due to appeals or other action.

INTRODUCTION

PROPERTY TAXES

Tennessee's property tax is one of the oldest and most significant sources of revenue for local governments. For purposes of taxation, the *Tennessee Constitution* (Article II, Section 28) divides all property into three classes: real property, tangible personal property and intangible personal property. The first two classes are further divided into subclasses, and a fixed percentage of value is established at which each subclass is to be assessed. The percentage of value at which property in a subclass is to be assessed is known as *assessed value*.

Taxes are imposed on the assessed value of property. Tax rates are set by the governing bodies of counties and municipalities while special school district tax rates are generally set by private act of the state legislature. These rates are typically expressed as an amount per \$100 of assessed value. To determine the amount of property tax to be paid by the property owner, the tax rate expressed as a percentage is multiplied by the assessed value of the property.

The taxable classification is based on the actual use, or most likely use if the property is unused. Value, on the other hand, is based on *highest and best use* (most profitable use at the time, subject to legal, physical and financial limits), which may differ from the actual use. Assessors may disregard highest and best use for "Greenbelt" property (see below), and for certain residential properties isolated in commercial zoning. See *TCA* §67-5-601(c), known as the "homebelt" law.

REAL PROPERTY

Real property is defined by statute to include land, structures and improvements on land, certain mobile homes and machinery and equipment affixed to the land.

The constitutional subclasses of real property and their assessed value percentages are as follows: industrial and commercial property, 40%; residential property, 25%; farm property, 25%; and public utility property, 55%. Some public utility property is assessed at the lower industrial and commercial percentage pursuant to federal law.

TANGIBLE PERSONAL PROPERTY

Tangible personal property is defined in *TCA* §67-5-501(12) as “goods, chattels, and other articles of value which are capable of manual or physical possession and certain machinery and equipment, separate and apart from any real property, and the value of which is intrinsic to the article itself.”

For purposes of assessment, tangible personal property has the following three subclassifications and rates of assessment: industrial and commercial property, 30%; public utility property, 55%; and all other tangible personal property, 5%. Some public utility personal property is assessed at the lower industrial and commercial rate pursuant to federal law. Beginning in 1989, state law required standard valuation methods for industrial and commercial property based on acquisition cost less straight line depreciation. In the absence of better evidence, fixed rates of allowable depreciation must be used depending on how the property is categorized.

Farm and non-business tangible personal property are part of the “all other tangible personal property” subclass, which receives a partial exemption under the state constitution along with the assessment percentage of only 5%. The constitutional exemption states that all money deposited in an individual’s personal, family checking or savings account and \$7,500 worth of personal household goods and furnishings, wearing apparel and other such tangible personal property in the hands of a taxpayer are exempt from taxation and the exemption is increased to \$15,000 for property owned jointly by a husband and wife. In addition to the constitutional exemption and low rate of assessed value provided for this subclass, there is also a statutory presumption that property in this subclass has no value.

INTANGIBLE PERSONAL PROPERTY

Intangible personal property is defined by statute to include “money, any evidence of debt owed to a taxpayer, any evidence of ownership in a corporation or other business organization having multiple owners, and all other forms of property whose value is expressed in terms of what the property represents rather than its own intrinsic worth.” Included is all personal property not classified as tangible personal property. The assessment level is 40% for this classification.

The state constitution gives the legislature power to establish subclasses and assessed value percentages for intangible personal property, but currently the statutes impose the tax only on intangible personal property of certain insurance companies, investment companies and cemetery companies. Provisions for taxing bank intangible property were struck down by the U.S. Supreme Court in 1983 and an excise tax is now imposed in lieu of the property tax on intangible personal property of banks.

ASSESSMENTS

This publication reports total assessed values of property in each county, municipality and special school district in Tennessee. County totals include all property within the geographic boundaries of the county. Unincorporated areas are not included separately. Municipalities which do not levy a property tax may not have an assessment for property within their boundaries.

Counties in Tennessee are authorized to levy an ad valorem tax on the property within the boundaries of that county. An appraised value must be placed on each property. When the constitutional assessed value percentage is applied to the appraised value of the property, the assessed value of the property has been determined.

MEDIAN APPRAISAL RATIO

Apart from exemptions and property classification distinctions provided by law, the ratio of assessed value to full value must be equal and uniform throughout the state. An appraisal ratio is developed for each county by comparing appraised values recorded for properties to recent sales and/or appraisals. The median appraisal ratio is used to achieve equalization by serving as an adjustment factor to be applied to appraised values of property already recorded at full fair market value.

TAX RATES

Actual Tax Rates

The actual tax rate in a jurisdiction indicates the amount of taxes paid per \$100 of assessed value. In some counties, the basic county tax rate is different for some of the cities. The basic county tax rate is given along with the tax rate for each city and each special school district. The total tax rate combines all applicable tax rates for the jurisdiction.

Weighted Average Effective Tax Rates

The weighted average effective tax rate is calculated by dividing the estimated current value into the total assessment for each county and then multiplying by the total tax rate. It serves as an index that may be used to explain the average tax burden for all property. Personal property has been included in this calculation.

Effective Tax Rates

The effective tax rate expresses taxes as a portion of market value. Different subclasses of property are assessed at different levels; for example, real property for farms and residential property is assessed at 25% of appraised value, industrial and commercial at 40%. However, the value of property shown on the books of the assessor may not be the current market value of the property. For each jurisdiction, the appraisal ratio indicates generally what percent of market value is represented by the appraised value of property. The effective tax rate summarizes the relationships among appraised value, the assessment level and the tax rate. Essentially, the

effective tax rate shows what percent taxes are of the appraised value of property. For example, in a jurisdiction with an effective tax rate of 1.00 for a class of property, the annual taxes on that property are equal to one percent of its appraisal value.

**AGRICULTURAL, FOREST AND
OPEN SPACE LAND
("GREENBELT")**

Property qualifying under statutory criteria may receive an assessment based on use value rather than market value. The Agricultural, Forest and Open Space Land Act of 1976 ("Greenbelt Law") specifies criteria in three categories: agricultural, forest, and open space land. There is a minimum acreage requirement (usually 15 acres) and a maximum acreage limit (1,500 acres per county) for any one owner or ownership entity.

PUBLIC UTILITIES

The Office of State Assessed Properties (OSAP) in the Comptroller's office provides assessments for public utility companies to the State Board of Equalization which reviews and adjusts the assessments based on average assessment levels in each county. Federal laws prohibiting tax discrimination against certain kinds of utility property have effectively lowered assessment rates for railroad, airline and motor carrier property to the same rates as industrial and commercial property.

To estimate the current property value, the assessment value is divided by the county appraisal ratio, then that value is divided by the assessment value percentage for each type of utility property. The actual assessment levels vary depending upon the mix of real and personal property owned by each company.

PARCELS AND POPULATIONS

Included in the report are the number of parcels by class of property and the total taxable parcels for each county.

The population given for each county and municipality is certified by the Department of Economic and Community Development, Local Planning Assistance Office. This is the population used for the distribution of state shared taxes.

**Summary of 2006 Estimated Current Values and Assessments
for Counties and Municipalities in Tennessee**

Table I summarizes the assessments for real, personal and public utility properties in all counties, municipalities and special school districts in the state. County totals include all property within the geographic boundaries of the county. All incorporated municipalities and all rural areas are in the county total.

TABLE I

Please note the data for any jurisdiction is current only as of the tax billing date for the jurisdiction. Assessments may have been revised after the billing date due to appeals or other action. Municipal assessment data is provided only for cities that impose a property tax.

**ESTIMATED CURRENT
PROPERTY VALUES**

The first column following the names of the counties and municipalities in Table I is the **estimated current property value** in each taxing jurisdiction. For all properties the estimate of the market value is achieved by dividing the appropriate constitutional assessed value percentage into the total assessed value of the property. The resulting figure is then divided by the median appraisal ratio in that county.

APPRAISAL RATIO

The **appraisal ratio**, adopted by the State Board of Equalization each year, is developed for each county by comparing appraised values recorded for real property to recent sales and/or appraisals. Property of centrally assessed public utilities is equalized by multiplying the local appraisal ratio by the assessed value of each company's property within the jurisdiction. Locally assessed properties are also equalized in this fashion where they are proven to be appraised for tax purposes at full market value.

**TOTALS OF REAL PROPERTY
ASSESSMENTS**

Totals of real property assessments include assessments of land, structures and improvements along with most mobile homes and machinery and equipment affixed to realty. Mineral assessments, assessed at 40%, are included in the real property assessments, as well as locally assessed utility real property.

*The total assessment contains locally assessed utility real property.

PERSONAL PROPERTY TOTALS

The column containing **personal property totals** aggregates the "goods, chattels, and other articles of value which are capable of manual or physical possession and certain machinery and equipment, separate and apart from any real property, and whose value is intrinsic to the article itself." (*TCA §67-5-501(12)*) Includes locally assessed utility personal property.

*The total assessment contains locally assessed utility personal property.

TOTAL LOCAL ASSESSMENTS

Total local assessments include real and personal property that is assessed by the property assessor of each county.

PUBLIC UTILITY ASSESSMENTS

Public utility assessments (centrally assessed) are provided in column seven. Properties assessed are railroads, buses, airlines and private cars, trucks, barge lines, electric companies and cooperatives, telephones (including cellphones) and telegraph companies, pipelines and gas companies, water and sewerage companies and power transmission companies.

*Contains only state assessed property.

TOTAL ASSESSMENTS

The **total assessment** for the county and each municipality is given in the last column. This is the total of real, personal and public utility assessments. Included in the total for the county is the rural area and all the incorporated municipalities. This is the tax base in each jurisdiction.

* MUNICIPALITIES LOCATED IN MORE THAN ONE COUNTY.

** APPRAISAL RATIO - THE AVERAGE LEVEL OF APPRAISAL FOR LOCALLY ASSESSED PROPERTY AS APPROVED BY THE STATE BOARD OF EQUALIZATION. (SEE INTRODUCTION)

2006 Assessment by Counties and Municipalities for Classes and Subclasses

Table II contains a detailed account of the real, personal and public utility assessments in each county and municipality. Assessments for both real and personal properties are divided into industrial and commercial, residential and farm. Intangible personal property is also included. Utilities are those centrally and locally assessed.

TABLE II

2006 Estimated Current Property Values by Counties and Municipalities for Classes and Subclasses

Table III contains the same categories as in Table II with the estimated current property value given for each county and municipality.

TABLE III

Please note the data for any jurisdiction is current only as of the tax billing date for the jurisdiction. Assessments may have been revised after the billing date due to appeals or other action. Municipal assessment data is provided only for cities that impose a property tax.

**CLASSES OF
PROPERTY**

The *Tennessee Constitution* divides all property into three classes: real property, tangible personal property and intangible personal property. Definitions for these classes can be found in the introduction of this publication.

ASSESSMENTS BY CLASS AND SUBCLASS

Table II contains the **assessments for each taxing jurisdiction** (by subclass) and Table III shows the **estimated current property values** for each taxing jurisdiction by subclass.

While real and personal property assessments are separated for industries, businesses, residences and farms, it should be noted that the assessments for public utilities include both real and personal.

**ESTIMATED CURRENT PROPERTY
VALUE BY CLASS AND SUBCLASS**

To estimate the property value in Table III, the assessment of the property is divided by the appropriate constitutional assessed value percentage and divided once again by the median appraisal ratio.

Values for locally assessed utilities are separated from the utilities centrally assessed by the Office of State Assessed Properties.

Locally assessed utilities will include personal property for Tables II and III.

* MUNICIPALITIES LOCATED IN MORE THAN ONE COUNTY.

** MINERAL ASSESSMENTS ARE INCLUDED WITH INDUSTRIAL AND COMMERCIAL ASSESSMENTS.

HOME BELT ASSESSMENTS ARE INCLUDED WITH RESIDENTIAL ASSESSMENTS. (SEE INTRODUCTION)

PROPERTIES IN DAVIDSON AND SHELBY COUNTIES WITH MULTIPLE CLASSIFICATIONS ARE INCLUDED WITH INDUSTRIAL AND COMMERCIAL ASSESSMENTS.

*** THE ESTIMATED FARM VALUE, EXCEPT GREENBELT, IS INCLUDED WITH THE ESTIMATED RESIDENTIAL VALUE IN HAMILTON AND KNOX COUNTIES.

**Changes in Assessments by Counties and Municipalities
Between 2005 and 2006**

Table IV compares assessments and the quotient change of real property, personal property and the total of both for the years 2005 and 2006.

TABLE IV

**Changes in Assessments and Estimated Current Property
Values Between 2005 and 2006**

Table V compares the 2005 and 2006 public utility assessment, the total assessment and the estimated current property value and the quotient change.

TABLE V

Please note the data for any jurisdiction is current only as of the tax billing date for the jurisdiction. Assessments may have been revised after the billing date due to appeals or other action. Municipal assessment data is provided only for those cities that impose a property tax.

Changes in assessments between 2005 and 2006 are found in Tables IV and V.

Table IV compares **assessments of real property, personal property and the total for locally assessed property** by each taxing jurisdiction. The quotient change between 2005 and 2006 is also shown.

Table V compares **public utility assessment, the total assessment of each jurisdiction and the estimated current property value**. Again, the quotient change is provided for each taxing jurisdiction between the years 2005 and 2006.

QUOTIENT CHANGES

In most cases, counties with high percentage changes have been revalued during 2006 thereby increasing the assessed value of many properties in the taxing jurisdiction.

TABLE IV

CHANGES IN ASSESSMENT BY COUNTIES AND MUNICIPALITIES BETWEEN 2005 AND 2006

* MUNICIPALITIES LOCATED IN MORE THAN ONE COUNTY.

**Actual Tax Rates and Weighted Average Effective Tax Rates
in 2005 and 2006**

Table VI contains the actual and the weighted average effective tax rates (WAETR) for 2005 and 2006 for each taxing jurisdiction.

TABLE VI

**2006 Effective Tax Rates by Counties and Municipalities for
Classes and Subclasses**

Table VII presents the effective tax rates compared to the total tax rate for each class of property for 2006.

TABLE VII

Please note the data for any jurisdiction is current only as of the tax billing date for the jurisdiction. Assessments may have been revised after the billing date due to appeals or other action. Municipal assessment data is provided only for those cities that impose a property tax.

The property tax is imposed on the assessed value of the property. Tax rates are set by the governing bodies of the counties and municipalities while the special school district tax rates are set by the legislature. Tax rates are typically expressed as an amount per \$100 of assessed value. To determine the amount to be paid by the property owner, the tax rate, converted to a percentage, is multiplied by the assessed value of the property.

ACTUAL TAX RATES

Table VI contains the **actual tax rates for 2005 and 2006** for each taxing jurisdiction. The total tax rate is the sum of the county, city and special school district taxes.

There are counties in which the basic county tax rate is different for some of the cities within that county. The basic county tax rate is given for each municipality and special school district in order to present a total tax rate for each entity.

WEIGHTED AVERAGE EFFECTIVE TAX RATES

The **weighted average effective tax rate (WAETR)** shown in columns five and nine serves as an index which may be used to explain the average tax burden for all property. The average is calculated by dividing the estimated current value of the property into the total assessed value for the county. That value is then multiplied by the total tax rate.

EFFECTIVE TAX RATES

Table VII presents the **effective tax rates compared to the total tax rate** for each class of property for 2006.

The **total tax rate** is taken from Table VI. The effective tax rate expresses taxes as a percentage of appraised value. The actual tax rate in a jurisdiction dictates the amount of taxes paid per \$100 of assessed value. Different subclasses of property are assessed at different levels: 25% of the appraised value on residences and farms, and 40% of the appraised value on industrial and commercial properties. However, the value of property shown on the books of the assessor may not be the current market value of the property. For each jurisdiction, the appraisal ratio indicates generally what percent of market value is represented by the appraised value of property. The effective tax rate summarizes the relationship between appraised value and market value, the constitutional assessed value percentage and the tax rate. Essentially, the effective tax rate shows what percent taxes are of the market value of property. For example, in a jurisdiction with an effective tax rate of 1.00 for a subclass of property, the annual property tax is equal to one percent of its market value.

TABLE VI

ACTUAL TAX RATES AND WEIGHTED AVERAGE EFFECTIVE TAX RATES IN 2005 AND 2006

* MUNICIPALITIES LOCATED IN MORE THAN ONE COUNTY.

** SPECIAL SCHOOL DISTRICTS ARE TAXING DISTRICTS TO PAY WARRANTS, NOTES OR BONDS FOR BUILDING, EQUIPMENT OR OTHER IMPROVEMENTS. THE TAX RATE IS SET BY THE GENERAL ASSEMBLY EITHER BY LAW OR PRIVATE ACT TO GENERATE THE REVENUE NECESSARY FOR THE SPECIAL SCHOOL DISTRICT.

*** THE WEIGHTED AVERAGE EFFECTIVE TAX RATE IS THE RATIO OF THE TOTAL ASSESSED VALUE TO THE TOTAL ESTIMATED CURRENT PROPERTY VALUE MULTIPLIED BY THE APPROPRIATE TAX RATE.

Summary of Percentage Changes in Assessment from 2005 to 2006 for Industrial and Commercial, Residential, Farm and Agricultural Property Classes

Table VIII summarizes the percent of change in assessment that has occurred between 2005 and 2006 for Industrial and Commercial, Residential, Farm and Agricultural Property Classes (AFOS). The table displays 2006 assessments only and their percent of change.

TABLE VIII

Please note the data for any jurisdiction is current only as of the tax billing date for the jurisdiction. Assessments may have been revised after the billing date due to appeals or other action. Municipal assessment data is provided only for those cities that impose a property tax.

PERCENT OF CHANGE

Table VIII provides 2006 assessed values for industrial and commercial, residential, farm and greenbelt properties (properties meeting statutory requirements of *TCA* §67-5-1001 through 1011) and the percent of change negative or positive from 2005 assessed values.

** THE FARM ASSESSMENT, EXCEPT GREENBELT, IS INCLUDED WITH THE RESIDENTIAL ASSESSMENT IN HAMILTON AND KNOX COUNTIES.

Percent of Classes and Subclasses to County Assessment Total for 2006

Table IX shows the percent of assessment value for classes and subclasses to the total county assessment for the tax year 2006.

TABLE IX

Revaluation Year, Parcels and Population for Counties and Municipalities in 2006

Table X provides general information about parcel and population data for each county and city.

TABLE X

**Population reflects 2000 census.*

Please note the data for any jurisdiction is current only as of the tax billing date for the jurisdiction. Assessments may have been revised after the billing date due to appeals or other action. Municipal assessment data is provided only for cities that impose a property tax.

Table IX shows the percent of total assessments by classes and subclasses to the total county assessment for the tax year 2006.

Table X provides general information. The last year each county was revalued is shown in the first column past the names of the counties and municipalities. The population estimate, shown in the last column, is used to distribute state shared taxes. Included in Table X is the number of parcels in real, personal and exempt properties and the total taxable parcels in each taxing jurisdiction. The totals do not include public utility parcels.
